## SIXTY-FIFTH SESSION

1917

Sept. 17, Monday—Supplementary examinations begin.

Sept. 24, Monday—Registration begins.

Sept. 26, Wednesday—Classes begin.

Sept. 28, Friday—Last day for registration without payment of late registration fee.

Oct. 9, Tuesday—Last day for registration.

Dec. 17, Monday—Christmas examinations begin.

Dec. 20, Thursday—Christmas holidays begin.

1918

Jan. 2, Wednesday—Classes re-open at 9 a.m.

Feb. 14, Wednesday—Holiday (Ash Wednesday).

Mar. 29, Friday—Easter Recess begins.

Apr. 2, Tuesday—Classes re-open at 9 a.m.

May 1, Wednesday—Classes close at 5 p.m.

May 6, Monday—Final examinations begin.

May 29, Wednesday—Convocation for conferring Degrees and announcing Honours.

# TIME TABLE FOR FIRST YEAR

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
9-10..	An.Bi.A., Phys.B.	Chemistry lect.	Physics lect.	Botany, lect.	Chem. lab. all	Anatomy, all
10-11..	An.Bi.A., Phys.B.	Hist. B., Phys. A.	An.Bi.B., Anat.A.	Anat. B., Phys. A.	Chem. lab. all	Anatomy, all
11-12..	Physics lect.	Hist. B., Phys. A.	An.Bi.B., Anat.A.	Anat. B., Phys. A.	Chem. lab. all	Anatomy, all
1-2..	Anatomy lect.	Hist. A., Phys. B.	Botany lect.	Anatomy lect.	An. Biology lect.	
2-3..	Chemistry lect.	Hist. A., Phys. B.	An. Biology lect.	Chem. lab. all	Anatomy, all	
3-4..	Anatomy, all	Anatomy, all	Chemistry lect.	Chem. lab. all	Anatomy, all	
4-5..	Anatomy, all	Anatomy, all	Anatomy, all	Chem. lab. all	Anatomy, all	

# TIME TABLE FOR SECOND YEAR

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
9-10..	Chemistry	Materia Medica	Chemistry	Expt. Physiology 9-12 A.	Anatomy	Chemistry
10-11..	Histology	Anatomy	Histology lab. 10-12 B.	Chemistry lab. 9-12 B.	Physiology	Histology lab. 10-12 A.
11-12..	Physiology	Physiology	Chemistry lab. 10-12 A.		Pharmacy	Chemistry lab. 10-12 B.
1-2..	Anatomy	Expt. Physiology 1-4 B.	Materia Medica	Anatomy	Anatomy	
2-3..	Anatomy		Anatomy	Anatomy	Anatomy	
3-4..	Anatomy	Chemistry lab. 1-4 A.	Anatomy	Anatomy	Anatomy	
4-5..	Anatomy		Anatomy	Anatomy	Anatomy	

# TIME TABLE FOR THIRD YEAR

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
9-10..	Pathology	Pathology	Clin. Microscopy	Physiology	Prac. Pathol. 9-11	Bacteriology
10-11..	Phys. Diagnosis	Bacteriology	Physiology	Phys. Diagnosis		Anatomy
11-12..	Pharmacology	Physiology	Surgery	Pharmacology	Physiology	Minor Surgery
1-2..	Anatomy	Pharmacology 1-3 A	Anatomy	Pharmacology 1-3 B	Anatomy	
2-3..	Anatomy	Anatomy 1-3 B	Anatomy	Anatomy 1-3 A	Anatomy	
3-4..	Bacteriology	Anatomy, all	Anatomy	Anatomy, all	Clin. Microscopy	
4-5..	Bacteriology	Anatomy, all	Anatomy	Anatomy, all	Clin. Microscopy	

# TIME TABLE FOR FOURTH YEAR

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
9-10..	Surgery	Eye, Ear, Nose and Throat	Eye, Ear, Nose and Throat	Pathology	Surgery	
10-11..	Clin. Medicine	Clin. Medicine	Clin. Medicine	Pathology	Clin. Medicine	Pathology 10-12
11-12..	App. Anatomy	Clin. Surgery	Gynaecology	Clin. Surgery	App. Anatomy	
1-2..	Pediatrics	Gynaecology	Pathology	Obstetrics	Obstetrics	
2-3..	Medicine	Therapeutics	Medicine	History Taking	Therapeutics	
3-4..	History Taking Clin. Surgery 4.30-5.30	History Taking	Surgery		History Taking	

## TIME TABLE FOR FIFTH YEAR

Hours	Monday	Tuesday	Wednesday	Thursday	Friday
9-10..	Eye, Ear, Nose and Throat		Pathology	Eye, Ear, Nose and Throat	Gynaecology
10-11..	Clin. Medicine	Clin. Medicine	Clin. Medicine	Gynaecology	Medicine
11-12..	Clin. Surgery	Clin. Surgery	Clin. Surgery	Clin. Surgery	Clin. Surgery
1-2..	Obstetrics	Obstetrics		(Rockwood)	Oper. Surg.
2-3..	Pathology	San. Science	San. Science	Ment. Diseases	Therapeutics
3-4..		Surgery	Clin. Surgery	Clinic	History of Medicine
4-5..	Jurisprudence	Jurisprudence		Mowat Hosp. (4-5)	

## SUPPLEMENTAL EXAMINATIONS

SEPTEMBER, 1917

### *Written Examinations.*

9 A.M.

2 P.M.

Monday, Sept. 17	Chemistry (1st) Physiology (3rd) Gynaecology (4th)	Chemistry (2nd). Obstetrics (4th).
Tuesday, Sept. 18	Pathology (3rd) Animal Biology (1st)	Pathology (4th). Materia Medica and Pharmacy (2nd).
Wednesday, Sept. 19	Pharmacology 3rd Botany (1st)	Medicine (4th). Physiology (2nd).
Thursday, Sept. 20	Bacteriology (3rd) Therapeutics (4th) Physics (1st)	Anatomy (2nd). Pediatrics (4th). Physical Diagnosis (3rd).
Friday, Sept. 21	Anatomy (3rd) Eye, Ear, Nose and Throat (4th) Physiology and Histology (1st)	Histology and Embryology (2nd). Applied Anatomy (4th).
Saturday, Sept. 22	Anatomy (1st) Surgery (3rd and 4th)	

Clinical, oral and practical examinations are arranged by the Professors concerned.

## MEDICAL EXAMINATIONS

MAY, 1918

### *Written Examinations.*

	9 to 11 A.M.	2 to 4 P.M.
Monday, May 6	Chemistry (1st) Anatomy (2nd and 3rd)	Pathology (4th).
Tuesday, May 7	Pathology (5th)	Pharmacology (3rd). Applied Anatomy (4th).
Wednesday, May 8	Botany (1st) Materia Medica and Pharmacy (2nd)	Pediatrics (4th).
Thursday, May 9	Physical Diagnosis (3rd)	Eye, Ear, Nose and Throat (4th and 5th).
Friday, May 10	Physics (1st) Chemistry (2nd)	Bacteriology (3rd).
Saturday, May 11	Medicine (4th) Obstetrics (5th)	
Monday, May 13	Anatomy (1st) Physiology (2nd) Pathology (3rd)	Therapeutics (4th).
Tuesday, May 14	Jurisprudence (5th)	Surgery (3rd).
Wednesday, May 15	Animal Biology (1st) Surgery (4th)	Histology and Embryology (2nd).
Thursday, May 16	Mental Diseases (5th)	Physiology (3rd). Obstetrics (4th).
Friday, May 17	Physiology and Histology (1st)	Gynaecology (4th). Sanitary Science (5th).

Clinical, oral and practical examinations are arranged by the Professors concerned.

## HISTORY OF THE UNIVERSITY

Queen's University owes its origin to the desire of the Synod of the Presbyterian Church in Canada in connection with the Church of Scotland for a ministry trained within the country. As early as 1832 the Provincial Government had been petitioned "to endow without delay an institution, or professorships, for the education and training of young men for the ministry in connection with the Synod." This and other representations failing of their object, steps were taken by the Synod to found a college at Kingston on the lines of the Scottish National Universities, and committees were formed for soliciting subscriptions for an Endowment Fund. On October 16, 1841, a Royal Charter was issued by Her Majesty Queen Victoria for the establishment of Queen's College, Kingston, and the first classes were opened in March, 1842, with the Rev. Dr. Liddell as Principal. Funds were provided in part by grants from the Presbyterian Church in Scotland, and from the Canadian Government, and in part by the liberal subscriptions from the friends of the young and growing University. Owing to the lack of good schools in the province it was found necessary at first to establish a preparatory school in connection with the College. In spite of many obstacles and of straitened circumstances, progress was steady, and financial difficulties were tided over by the unwearied efforts of the early friends of Queen's. In 1867-68 the withdrawal of the Provincial grant, and the failure of the Commercial Bank, which swept away the greater part of the endowment, brought the affairs of Queen's to a low ebb. The crisis was met by the determination of Principal Snodgrass and of other self-denying workers, chief among whom was Professor Mackerras. Through their labours the country was canvassed for subscriptions, and as a result of the widespread interest aroused, \$113,000 was subscribed, and the crisis passed.

In 1877 Principal Snodgrass was succeeded by the Rev. G. M. Grant who for a quarter of a century built with brilliant success upon the foundation laid by his predecessors. Himself a born leader and splendid worker, he gathered round him an enthusiastic band of helpers, and under him growth and development went on with great rapidity in every department of the University. By 1881 Queen's had a new building, an enlarged staff, and a great increase of students. In 1887, as the result of an effort in commemoration of the Queen's Jubilee, \$250,000 was raised, resulting in further extension, and in the establishment of new professorships.

Principal Grant died in 1902, and was succeeded in the following year by the Very Rev. D. M. Gordon. Since then the number of pro-

fessors and students has more than doubled, the number of buildings has trebled, and the endowment has been increased by over \$500,000.

In 1854 the first classes in Medicine were held in Queen's University, and in 1855 the first class graduated. The Medical Faculty was originally a Faculty of the University, but a separation took place in 1866, and for some years the Medical School was conducted under the Charter of the Royal College of Physicians and Surgeons at Kingston. In 1892 the Faculty again became an integral part of the University system. In 1913 the finances of the School were merged into those of the University. At the present time the Medical Faculty has the same relation to the Board of Trustees and Senate as the other Faculties.

The School of Mining, which since 1893 had been under the control of a separate Board, was in 1916 amalgamated with the University, and now constitutes its Faculty of Applied Science. It was founded in 1893 under an Ontario Charter which placed its management in the hands of a Board of Governors elected by its shareholders, i.e. the subscribers to its funds. For several sessions all its departments were housed in Caruthers Science Hall, which had been erected in 1889, but in view of the rapid success and increased requirements of the School, the Provincial Legislature in 1900 provided for its accommodation two large buildings, Ontario Hall for the Departments of Mineralogy, Geology and Physics, and Fleming Hall for the Departments of Civil, Mechanical, and Electrical Engineering. More recently the Provincial Government erected Gordon Hall, which is entirely devoted to Chemistry, and, through the generosity of Professor Nicol and other graduates, Nicol Hall has been built for the accommodation of the class rooms and laboratories of the Department of Mining and Metallurgy.

In 1907 the Faculty of Education was organized for the purpose of training teachers for the secondary schools of Ontario. Its revenues consist chiefly of the annual grant of the Provincial Government.

Queen's led the way in co-education. As early as 1870 special classes in English and other subjects were formed for women, but the academic career leading to a degree was not thrown open to them until 1878-79. In 1880 co-education was extended to the medical course, and in 1883 a separate Women's Medical College was opened, and affiliated with Queen's. It was closed, however, in 1894, as similar facilities were offered in Toronto and elsewhere.

Queen's has long been nation-wide in its work and influence. The University has contributed materially to the higher education of the Eastern provinces and has been intimately concerned with the intellectual development of the newer regions westward. With the great expansion of recent years have come new problems and the need of firmer

organization. So, as the result of an amicable arrangement between the Presbyterian Church and the Trustees of the University, certain constitutional changes were made in April, 1912, by an Act of the Dominion Parliament (2 George V, Chap. 138). This Act removed such denominational restrictions as remained and made possible a more vital connection between the University and its affiliated schools.

There is now on the University Campus a stately group of buildings, comprising the Old Arts Building (now the Theological Building); Caruthers Hall (Civil Engineering); the New Arts Building, the gift of the city of Kingston; Grant Hall, erected by the students to the memory of the late Principal Grant; Ontario Hall (Physics, Mineralogy, and Geology); Fleming Hall (Mechanical and Electrical Engineering); Gordon Hall (Chemistry); Nicol Hall (Metallurgy); the Medical Building; the Medical Laboratories Building; a spacious Gymnasium; and a well equipped Observatory. The Library, which contains about 70,000 volumes, is in the Old Arts Building. A separate Library Building will be erected at an early date, as the Chancellor of the University, Dr. James Douglas, has recently donated the generous sum of \$150,000 for this purpose.

## GOVERNMENT AND ADMINISTRATION

The administration of the University is vested in the Board of Trustees, the University Council, the Senate, and the Faculty Boards.

### THE BOARD OF TRUSTEES

The Board of Trustees consists of *ex-officio* and elective members. The former are the Chancellor, the Principal, and the Rector. The latter consist of (1) one representative from each affiliated college, (2) representatives as provided for by the Statutes from (a) the University Council, (b) the Benefactors, (c) the Graduates, and (3) members elected by the Board of Trustees.

The functions of the Board of Trustees are to manage the finances, to possess and care for the property, to procure legislation, to appoint instructors and other officers, and in general to attend to such external matters as do not relate directly to instruction.

### THE UNIVERSITY COUNCIL

The University Council consists of the Chancellor, the Trustees, the members of the Senate, and an equal number of members elected by the Graduates.

The Chancellor is elected by the Council, except when two or more candidates are nominated, in which case the election is by registered graduates and alumni. He holds office for three years; and, as the highest officer of the University, presides at meetings of the Council at Convocation and at statutory meetings of the Senate. In his absence he is represented by the Vice-Chancellor.

Of the elected members eight retire annually, except in every sixth year, when ten retire. Successors are elected by registered graduates and alumni.

The Functions of the Council are:

- (1) To elect six trustees, two of whom shall retire annually.
- (2) To make by-laws governing the elections of (a) the Rector by the registered students, (b) four trustees by the benefactors, (c) six trustees by the University Council, (d) six trustees by the graduates.
- (3) To discuss all questions relating to the University and its welfare.
- (4) To make representation of its views to the Senate or the Board of Trustees.
- (5) To decide on proposals for affiliation.
- (6) To arrange all matters pertaining to (a) its own meetings and business, (b) the meetings and proceedings of Convocation, (c) the installation of the Chancellor, (d) the fees for membership, registration and voting.

The annual meeting of the Council is held on the Tuesday immediately preceding Convocation.

### THE SENATE

Until 1913 the Senate was composed of all the Professors, Associate Professors, and Assistant Professors on the staff of the University. It transacted all business relating to the work of instruction, the arrangement of classes, the conduct of examinations, and the award of standing, having charge in general of the internal administration of the University.

In 1913, however, Faculty Boards were created to relieve the Senate of much work which, owing to the growth of the University, had increasingly devolved upon it, and at the same time the Senate was made a representative body composed of certain members of the various Faculties.

The Senate now consists of:

The Principal.

The Vice-Principal.

The Principal of Queen's Theological College.

The Dean of the Faculty of Arts.

The Dean of the Faculty of Medicine.

The Dean of the Faculty of Applied Science.

The Dean of the Faculty of Education.

Three Professors elected by the Faculty of Arts.

Two Professors elected by the Faculty of Queen's Theological College.

Three Professors elected by the Faculty of Medicine.

Three Professors elected by the Faculty of Applied Science.

The Functions of the Senate are:

(1) To determine all matters of an academic character which concern the University as a whole.

(2) To consider and determine all courses of study leading to a degree, including conditions of Matriculation, on recommendation of the respective Faculty Boards; but the Senate shall not embody any changes without having previously presented these to the Faculty.

(3) To recommend to the Board of Trustees the establishment of any additional Faculty, Department, Chair, or Course of Instruction in the University.

(4) To be the medium of communication between the Alma Mater Society and the Governing Bodies.

(5) To determine all regulations regarding the social functions of the students within the University, and regarding the University Library and University Reading Rooms.

(6) To publish the University Calendar.

(7) To conduct examinations.

- (8) To grant Degrees.
- (9) To award University Scholarships, Medals, and Prizes.
- (10) To enforce the Statutes, Rules, and Ordinances of the University.
- (11) To make such recommendations to the Governing Boards as may be deemed expedient for promoting the interests of the University.

### THE FACULTY BOARDS

The Faculty Boards are constituted as follows:

For the Faculty of Arts and for the Faculty of Applied Science, the Dean, Professors, Associate Professors, Assistant Professors, and Lecturers of each Faculty have power to meet as separate boards, and to administer the affairs of each Faculty under such regulations as the Board of Trustees may prescribe.

For the Faculty of Medicine, the Dean, Professors, Associate Professors, and Assistant Professors have power to meet, as a separate board, and to administer the affairs of the Faculty under such regulations as the Board of Trustees may prescribe.

The Principal is *ex-officio* president and a member of each of the foregoing Faculty Boards. In his absence from the Arts Faculty the Vice-Principal shall preside. In his absence from the Medical Faculty, or from the Faculty of Applied Science, the Dean of the Faculty shall preside.

The Functions of the Faculty Boards are:

- (1) To recommend to the Senate courses of study leading to a degree, and the conditions of admission.
- (2) To decide upon applications for admission or for change of course, subject to the regulations of the Senate.
- (3) To submit to the Senate names for both ordinary and honorary degrees.
- (4) To arrange the time-table for classes and to edit the Faculty Calendar, subject to the approval of the Senate.
- (5) To control registration, and determine the amount of fees and manner of payment, subject to the regulations of the Senate.
- (6) To deal with class failures.
- (7) To exercise academic supervision over students.
- (8) To make such recommendations to the Senate as may be deemed expedient for promoting the efficiency of the University.
- (9) To award Faculty Scholarships, Medals, and Prizes.
- (10) To appoint such sessional assistants, fellows, tutors, and demonstrators as shall be needed to give instruction in the subjects taught by the Faculty.
- (11) To pass such regulations and by-laws as may be necessary for the exercise of the functions of the Faculty.

# OFFICERS OF ADMINISTRATION

## THE BOARD OF TRUSTEES

### *Chairman*

HAMILTON CASSELS, M.A., LL.D., K.C.

### *Ex-officio Members*

JAMES DOUGLAS, B.A., LL.D. ....	Chancellor
VERY REV. D. M. GORDON, M.A., D.D., LL.D., C.M.G. ....	Principal
JAMES W. ROBERTSON, LL.D., C.M.G. ....	Rector

### *Elective Members*

#### *Retire 1924*

R. CRAWFORD, B.A. <sup>4</sup> .....	Kingston
M. J. O'BRIEN, ESQ. <sup>4</sup> .....	Renfrew

#### *Retires 1923*

T. B. CALDWELL, ESQ. <sup>4</sup> .....	Lanark
---	--------

#### *Retire 1922*

W. G. MILLER, LL.D. <sup>4</sup> .....	Toronto
ALD. R. E. KENT <sup>4</sup> .....	Kingston

#### *Retire 1920*

REV. W. T. HERRIDGE, D.D. <sup>6</sup> .....	Ottawa
BRIG.-GEN. W. A. LOGIE, M.A., LL.B. <sup>6</sup> .....	Hamilton
REV. G. M. MILLIGAN, D.D., LL.D. <sup>6</sup> .....	Toronto

#### *Retire 1919*

REV. W. J. CLARK, D.D. <sup>6</sup> .....	Montreal
REV. D. R. DRUMMOND, M.A., D.D. <sup>6</sup> .....	Hamilton
LIEUT.-COL. R. W. LEONARD <sup>2</sup> .....	St. Catharines
J. M. FARRELL, B.A. <sup>3</sup> .....	Kingston
LIEUT.-COL. D. M. ROBERTSON, B.A. <sup>3</sup> .....	Toronto
D. M. MCINTYRE, B.A., K.C. <sup>1</sup> .....	Toronto

#### *Retire 1918*

HAMILTON CASSELS, M.A., LL.D., K.C. <sup>6</sup> .....	Toronto
JUDGE D. B. MCTAVISH, M.A. <sup>6</sup> .....	Ottawa
E. R. PEACOCK, M.A. <sup>6</sup> .....	London, Eng.

## CHANCELLOR

JAMES DOUGLAS, B.A., LL.D.

## PRINCIPAL AND VICE-CHANCELLOR

VERY REV. DANIEL MINER GORDON, M.A., D.D., LL.D., C.M.G.

## RECTOR

JAMES W. ROBERTSON, LL.D., C.M.G.

## VICE-PRINCIPAL

JOHN WATSON, M.A., D.D., LL.D.

## REGISTRAR

GEORGE Y. CHOWN, B.A.

## OFFICERS OF INSTRUCTION

W. G. ANGLIN, M.D., M.R.C.S., Eng.

*Professor of Clinical Surgery*

94 Earl Street

S. M. ASSELSTINE, M.D., C.M.

*Douglas Professor of Pharmacology*

309 Earl Street

A. L. CLARK, M.A., Ph.D., F.R.S.C.,

*Professor of Physics*

200 Albert Street

J. C. CONNELL, M.A., M.D.

*Professor of Ophthalmology, Otology, Larynology and  
Rhinology, and Dean of the Faculty*

265 King Street

W. T. CONNELL, M.D., M.R.C.S., Eng., L.R.C.P., London

*Professor of Pathology, Bacteriology and Sanitary  
Science*

11 Arch Street

R. W. GARRETT, M.A., M.D.

*Emeritus Professor of Obstetrics and Gynaecology*

52 Johnson Street

W. L. GOODWIN, D.Sc., Edin.

*Professor of Chemistry*

Alice Street

G. E. KIDD, B.A., M.D., C.M. (on active military service)

*Professor of Anatomy and Lecturer in Animal Mor-  
phology*

A. P. KNIGHT, M.A., M.D., F.R.S.C.

*The John Roberts Professor of Animal Biology, Phy-  
siology and Histology*

Alice Street

A. P. LOTHROP, M.A., Ph.D., Columbia

*Professor of Medical and Biological Chemistry*

149 Union Street W.

D. E. MUNDELL, B.A., M.D., F.A.C.S.

*Professor of the Principles and Practice of Surgery*

228 Brock Street

G. W. MYLKS, M.D.

*Professor of Pediatrics and Gynaecology*

79 William Street

W. T. MACCLEMENT, M.A., D.Sc.

*The John Roberts Allan Professor of Botany*

University Grounds

A. E. ROSS, B.A., M.D., C.M.G. (on active military service)

*Professor of Materia Medica and Jurisprudence*

EDWARD RYAN, B.A., M.D. (on active military service)

*Professor of Applied Anatomy and Associate Professor  
of Clinical Surgery and Clinical Medicine*

Rockwood Hospital

JAS. THIRD, M.D., Tor., M.D., C.M., Trinity

*Professor of Medicine and Clinical Medicine*

12 Wellington Street

- A. R. B. WILLIAMSON, M.A., M.D., M.R.C.S., Eng., L.R.C.P., London  
*Professor of Obstetrics, Medical Jurisprudence and  
Toxicology, and Secretary of the Faculty*  
240 King Street
- C. A. MORRISON, M.D.  
*Associate Professor of Applied Anatomy and Assistant  
Professor of Surgery*  
208 Bagot Street
- FREDERICK ETHERINGTON, M.D., L.R.C.P. and S., Edin. (on active military service)  
*Assistant Professor of Surgery*
- WM. GIBSON, M.D.  
*Assistant Professor of Pathology and Bacteriology  
and Clinical Assistant in Medicine*  
85 William Street
- T. L. PATTERSON, M.A., M.Sc., F.R.S.A.,

*Librarian and Assistant Secretary*

240 Alfred Street

# EQUIPMENT AND SPECIAL FACILITIES

## THE MEDICAL BUILDINGS

The Medical Building, erected in 1858, has been enlarged and improved. The upper floor is devoted to the study of Anatomy, and has two large dissecting rooms, a lecture room and rooms for private demonstrations and an anatomical museum.

The new Medical Laboratories Building was erected at an expenditure of \$50,000, and has been equipped throughout. The classes in Physiology, Biology, Histology, Pathology, Bacteriology and Pharmacology are conducted herein. This makes a most valuable addition to the resources of the school and gives students all the most modern advantages in laboratory work. In these laboratories examinations of specimens for the Public Health Department are constantly carried on and also experimental work for the dairy interests of Eastern Ontario. Rooms for research work have also been provided in this building. The Professor of Bacteriology is also a special Health Officer of the Provincial Board of Health, so that examinations of large numbers of pathological products are constantly being made in the laboratories.

---

## THE LABORATORIES

### THE BIOLOGICAL LABORATORIES

For the work in Animal Biology three large laboratories are available. The one for general work in dissection and histological demonstrations is located in the second story of the eastern end of the new Medical Building on Arch street. It is capable of accommodating 120 students, and is provided with all appliances needed in the course. The second, situated in the north end of the same building, is used for Practical Histology and microscope work by students in both Arts and Medicine. The third laboratory is for Experimental Physiology and occupies the second story of the western end of the Medical Laboratories Building. It is fitted up with instruments manufactured by the Harvard Apparatus Company, and has all appliances necessary for 50 students working at once.

### THE BOTANICAL LABORATORIES

The Botanical Laboratories occupy three rooms. One is equipped for the work of the Pass classes in Arts and Medicine, and will accommodate sixty students with dissecting microscopes, drawing tables, and projection apparatus. Another laboratory is devoted to practical studies in Plant Morphology and Anatomy, and is completely equipped with compound microscopes, drawing tables, and supplies. The third laboratory is adapted for Plant Physiology and Microtechnique and contains

the required apparatus, reagents, water, gas, electric heaters, etc. Individual work is required from all.

#### THE CHEMICAL LABORATORIES

The Chemical Laboratories are situated in Gordon Hall, which was opened for occupancy in the autumn of 1911. This building is devoted entirely to work in Chemistry, and is thoroughly modern in every detail. There is a large lecture amphitheatre situated on the third floor with a seating capacity of 216, and two small lecture rooms on the first floor. On the third floor are two laboratories for General Chemistry, one for Medical Chemistry, and one for Electro-Analysis. On the second floor are two for Quantitative Analysis, one for Organic Chemistry, one for Food and Water Analysis, and one (not yet equipped) for whatever future development demands. On the first floor are three for Qualitative Analysis, one for Industrial Chemistry, one for Physical Chemistry, one for Gas Analysis, one for Spectroscopy, and one dark room for Photography. Besides these there are small separate laboratories for research work, organic combustion work, etc. Each member of the permanent staff has his own office and laboratory where he may carry on his private investigations. A centrally located set of supply and store rooms is provided with electric elevator connection. A well-lighted library, equipped for both undergraduate and post-graduate study, is situated on the second floor.

A double system of ventilation is provided, one for noxious fumes and the other for general ventilation. A special equipment, automatically operated, is provided for compressed air, as well as a low pressure system. Both high and low pressure steam is provided in the majority of the laboratories, and electricity for heating and motor purposes is available throughout the building.

#### THE PHYSICAL LABORATORIES

The Physical Laboratories are situated in the southern half of Ontario Hall. There is a large, well equipped lecture room with seating capacity of 125 on the second floor, and a small lecture and class room on the first floor. Two of the large rooms on the first floor are devoted to the more elementary laboratory work of the first and second years and a commodious room on the second floor is arranged as an electrical laboratory for advanced work. Various smaller rooms are fitted for special purposes. One of them is for work in Physical Optics—Spectrometry, Polarimetry, and Spectroscopy. Another is well equipped as a dark room for Photography. A third is arranged for X-ray and photometric work. Other rooms are used as private laboratories, offices, apparatus rooms, and store rooms. The library and reading room is a large well lighted room on the second floor.

## THE HOSPITALS

The Kingston General Hospital is adjacent to the University buildings. It contains 230 beds, and in addition to wards for medical and surgical cases there are various special departments to which students have access. The Nickle wing accommodates infectious diseases. The Doran building is reserved for obstetric and gynæcology cases and contains an operating room specially arranged for this work. In the main building, the Fenwick operating room, built in amphitheatre style on modern plans, will seat 100 students, and affords every facility for observing surgical operations. There is also a private operating room in the main building. The Empire Wing recently completed at a cost exceeding \$50,000, contains a large class room suitable for autopsies, pathological rooms, dispensary and accommodation for about forty private patients. In the General Hospital about 2,500 patients are treated annually.

The Hotel Dieu Hospital was founded in 1840. The commodious structures now occupied were rebuilt in 1892. Two hundred patients can be accommodated. The operating room is thoroughly equipped with modern facilities. During the year patients to the number of about 1,800 are admitted.

Rockwood Hospital for the Insane is also open to students. It contains about 600 patients. The lectures in Mental Diseases are given in the Hospital, as well as many clinics, operations and post-mortems.

The Oliver Mowat Memorial Hospital for Tuberculosis has recently been taken over by the Militia Department and much enlarged. It is thoroughly equipped in accordance with the latest methods of treatment of that disease, and affords ample means to the students for the study of the prevention and cure of tuberculosis.

---

## THE MUSEUM

The Pathological Museum contains numerous valuable specimens collected both from hospital and private practice. A catalogue has been compiled and is accessible for use in study of the specimens. Contributions of morbid specimens will be gladly received from practitioners. Specimens of congenital malformations and of monstrosities are especially desired.

---

## THE MEDICAL LIBRARY

The Medical library is in the main Medical building and is entirely separate from the general library of the University. The Librarian is a member of the Association of Medical Librarians, which has for its object the fostering of medical libraries and the maintenance of exchange of medical literature. The reading room is provided with the leading medical and surgical publications, and is open to students daily throughout the session (Saturdays excepted) from 2 to 5 p.m.

## THE UNIVERSITY LIBRARY

The University Library contains about 70,000 volumes, besides many thousand pamphlets. Extensive additions have been made during the past few years in all departments. The Canadian section contains many rare and interesting works and valuable historical documents, and is particularly well equipped for research studies.

A large collection of magazines, periodicals, and other publications in all departments, including the journals and transactions of the principal societies, are available in the Library. In most cases these are complete from the first issue and are kept up to date by the annual additions.

Lack of space and of proper accommodation for workers is making Library routine increasingly difficult, but as far as is consistent with the present conditions, arrangements have been made both for the ordinary work of the students and for more advanced studies. In the main consulting room adjoining the Library, increased facilities for work have been afforded the students by the addition of several hundred books of reference, dictionaries, encyclopædias, etc., and by the throwing open of the Consulting Library throughout the entire day and evening. An assistant librarian, of whom inquiries regarding the books may be made, is always present at the reference desk in this room.

The present cramped conditions will be relieved in the near future by the erection of a commodious building.

### LIBRARY REGULATIONS

1. The Library is open daily, except Sundays, from 9 a.m. to 4.30 p.m. During these hours students may obtain books for use either in the consulting rooms or at their homes.

2. The Reference Library and Reading Room adjoining the Main Library is open from 9 a.m. to 6 p.m. and from 7.30 p.m. to 9.30 p.m.

3. Students in Final Honour classes and those engaged in special work have access to the shelves of the Library, on the recommendation of an instructor, and have the benefit of individual help from the library staff, when required.

4. Text-books are not supplied by the Library.

5. Intra-mural students may ordinarily have as many as three books out at one time. These books may be exchanged as often as desired, but must not be kept for more than one week without a new entry. A student violating this rule is liable to a fine.

# GENERAL INFORMATION

## ADMISSION OF STUDENTS

Men alone are admitted.

Matriculation requirements must be completed before admission.

Candidates for a degree must pass the Junior Matriculation of the University or its equivalent unless they (1) possess a degree in Arts, not being an honorary degree, from any recognized University; (2) have passed the Matriculation examination prescribed by the Medical Council of any Province in Canada.

Candidates from the United States will be accepted on presentation of a certificate of registration as a fully matriculated medical student from any State Board of Medical Licensure.

Graduates in Arts, who have taken in their Arts course the subjects of Physics, Chemistry and Biology, including Physiology and Histology, will receive advanced standing with credit for the work done in Arts so far as it applies to the Medical course. The course in Medicine may thus be completed in four years instead of five. There is a special course in Arts in which the degrees of B.A. and M.D. may be obtained in seven years (page 28).

At the time of registration students must present to the Secretary their matriculation or other certificates of preliminary education, and where exemptions are claimed certificates giving an exact statement of the exemptions to which they are entitled.

Candidates who matriculate in any University in the British Empire will be allowed to enter upon a course without further examination. Matriculation Examinations from Universities in other countries will be accepted *pro tanto*.

Teachers' examinations are accepted *pro tanto* in lieu of the Matriculation Examination, *i.e.*, in so far as the subjects correspond, as follows:—

Ontario.....	Jr. Leaving, Entrance to Normal School.
Prince Edward Island....	Second Class.
Nova Scotia.....	Grade XI.
New Brunswick.....	{ Academy Grade III. University School AA.
Manitoba.....	
Alberta.....	Second Class.
Saskatchewan.....	Grade VII.
British Columbia.....	Grade VII.
British Columbia.....	Intermediate.
Newfoundland.....	Intermediate (50% required).

## MATRICULATION EXAMINATIONS

The matriculation examinations are conducted for the universities by the Education Department of Ontario.

Information as to conditions and subjects may be obtained from the Registrar of the University.

---

## REGISTRATION

Students entering the Faculty of Medicine are required to submit the certificates on which they claim standing before being permitted formal registration.

Students, not registering *in person* on or before Sept. 28th, must pay the fee for late registration and no student will be allowed to register in the Faculty of Medicine after the ninth of October.

A student who has attended the course of instruction in any year will be required to complete the examinations for that year before he will be permitted to register in the succeeding year.

Any student desirous of repeating any year more than once must obtain the permission of the Faculty.

---

## CURRICULUM

Undergraduates who are candidates for the degree of M.D., C.M., must complete a period of five years' study, comprising five sessions of eight months each.

Regular attendance on full courses of instruction is required in the following departments:—

### SUBJECTS OF STUDY

1st Year:—Physics, Animal Biology, Botany, Histology, Anatomy and Chemistry.

2nd Year:—Anatomy, Practical Anatomy, Materia Medica, Pharmacy, Organic and Physiological Chemistry, Physiology, Histology, and Embryology.

3rd Year:—Anatomy, Practical Anatomy, Pharmacology, Physiology, Bacteriology, Pathology, Physical Diagnosis, Surgery.

4th Year:—Pathology, Surgery, Medicine, Obstetrics, Gynæcology, Pediatrics, Eye, Ear, Nose and Throat, Applied Anatomy, Therapeutics.

5th Year:—Surgery, Medicine (including Therapeutics), Obstetrics, Gynaecology (Clinical), Pathology (Applied), Eye, Ear, Nose and Throat, Sanitary Science, Medical Jurisprudence, Mental Diseases, History of Medicine, Life Insurance Examinations.

The above courses of study may have been pursued either wholly at Queen's, or partly at Queen's and partly at some other recognized medical school. In the latter case at least one full session must have been spent at this University.

Certificates of attendance on lectures are accepted from incorporated medical schools in the British Dominions and others recognized by British Universities and licensing bodies. Other certificates of attendance on lectures and examinations may be accepted at the discretion of the faculty.

### COMBINED B.A. AND M.D. COURSE

Students in Arts having the study of Medicine in view may take the following course, and thus obtain the B.A. and M.D. degrees in seven years:—

<i>Year I</i>	
Junior Latin	} any three
Junior Greek	
Junior French	
Junior German	
Junior English	
Junior Mathematics	

<i>Year II</i>	
Junior Philosophy	} any one
Senior English	
Senior Latin	
Senior Greek	
Senior German	
Senior French	
Junior Physics	
Botany (pass Arts)	

<i>Year III</i>	
Chemistry (1st year Medical)	} any one
Animal Biology (1st year Medical)	
Anatomy (1st year Medical)	
Senior Philosophy	
Economics	
Politics	

<i>Year IV</i>	
Organic and Physiological Chemistry (2nd year Medical)	
Physiology (2nd year Medical)	
Anatomy (2nd year Medical)	
Materia Medica and Pharmacy	
Histology and Embryology	

The classes named above qualify for the degree of B.A. For the degree of M.D. the candidate must take in addition the third, fourth and fifth years in the Medical School.

Students taking this course are required to register for the first two years in Arts, paying the class, laboratory and registration fees in Arts; in the third and fourth years to register in Arts and pay the full fees in Medicine; and for the last three years to register and pay the full fees in Medicine.

Arts classes are subject to the regulations in the Arts calendar and the classes in Medicine to the regulations of the Medical calendar.

## EXAMINATIONS AND GRADUATION

Every candidate intending to appear at the final examination must, on or before the 1st day of May in the year in which he proposes to graduate, present to the Secretary a declaration under his own hand that he is twenty-one years of age, or that he will be so before the date of graduation, and a statement of his medical studies, with proper certificates.

Every student must on or before May 1st notify the Secretary of the examinations upon which he intends to write. For this purpose blank forms are supplied.

Students must attend a minimum of 80 per cent. of the lectures and laboratory exercises in the subjects for which they are registered to be admitted to the final examinations in those subjects.

A minimum of fifty per cent. in each subject is required to pass. Candidates who fail to pass in the majority of the subjects required at one annual examination must repeat their attendance at all the classes of the year before they will be allowed to present themselves again for examination.

Candidates who fail in a minority of the subjects required at one annual examination may present themselves at the supplemental examinations next ensuing, in the subjects in which they failed, and on passing at such examinations, shall be allowed their year. Failure at the supplemental examinations will necessitate the repetition of the whole work of the year.

A candidate will not be admitted to an examination unless he has paid all fees due from him.

### EXAMINATIONS

Examinations are required at the end of every session as follows:—

At the end of the first session:—

Anatomy, Animal Biology including Physiology and Histology, Botany, Chemistry, Physics.

At the end of the second session:—

Anatomy, Physiology, Histology and Embryology, Materia Medica and Practical Pharmacy, Chemistry.

At the end of the third session:—

Anatomy, Physiology, Pharmacology, Bacteriology, Pathology, Physical Diagnosis, Surgery.

At the end of the fourth session:—

Pathology, Surgery, Clinical Surgery, Medicine, Clinical Medicine, Obstetrics, Gynæcology, Pediatrics, Eye, Ear, Nose and Throat, Applied Anatomy, Therapeutics.

At the end of the fifth session:—

Clinical Surgery, Clinical Medicine, Clinical Gynaecology, Obstetrics, Pathology, Eye, Ear, Nose and Throat, Sanitary Science, Medical Jurisprudence, Mental Diseases.

### EQUIVALENT EXAMINATIONS

The following courses and examinations in Arts will be accepted in Medicine:—

- |   |  |
|---|--|
| 1. Attendance on the preliminary honour course and examinations in first year Animal Biology and preliminary honours. | 1. Course and examination in first year Animal Biology.            |
| 2. Attendance on the honour course and examination in second year Animal Biology, including Histology.                | 2. Course and examination in second year Physiology and Histology. |
| 3. Courses and examinations in Junior Chemistry and Qualitative Analysis (Senior Chemistry).                          | 3. Course and examination in first year Chemistry.                 |
| 4. Course and examination in Junior Physics, in Arts or Science.  | 4. Course and examination in Physics.                              |
| 5. Course and examinations in Arts Botany.  | 5. Course and examination in Medical Botany.                       |

### FEES

All fees must be paid before November 1st.

Matriculation Examination Fee .....	\$ 8 00
Sessional Fee .....	105 00
Fee for late registration .....	3 00
Supplemental Examinations (each year) .....	10 00
Hospital Ticket—full course, payable with third year fees .....	25 00
Hospital Ticket—one session .....	9 00
<i>Ad eundem statum</i> .....	10 00
Graduation—M.D., C.M. ....	30 00
—D.Sc. ....	50 00
—D.P.H. ....	20 00
Exclusive use of Microscope, per session .....	5 00
Laboratory fee for Chemistry, per session .....	5 00
Laboratory fee for Experimental Physiology .....	3 00
Laboratory fee for Physics .....	3 00

Matriculation, Laboratory and Graduation fees are payable to the Registrar of the University; all other fees to the Secretary of the Faculty of Medicine.

All registered students must pay the regular sessional fee whether taking a partial course or more than the usual number of classes. Graduates in Arts and students in the combined course (B.A., M.D.) are required to pay the full sessional fee.

### AVERAGE COST PER SESSION

The average student pays \$4.00 a week for board and \$1.50 for room, so that satisfactory board and lodging may be obtained at from \$5.25 to \$6.00 per week. Lists of boarding and lodging houses may be obtained from the Secretary of the Faculty.

The incidental expenses include subscriptions to students' societies, the cost of a Hospital ticket, and so forth. Laboratory and microscope fees must be paid in addition to the regular class fees, the amount depending upon the year.

*The estimates do not include personal expenses.*

Board and lodging (32 weeks) .....	\$168	—	\$192
Books and Stationery .....	20	—	40
Class Fees .....	105		105
Hospital Fee (for 3 years) .....	9		9
Incidentals .....	15	—	25
	\$317		\$371

### PHYSICAL WELFARE OF STUDENTS

Each first year student is given a physical examination by a competent physician appointed by the University, and corrective exercises in the Gymnasium are prescribed when they are needed.

Gymnasium work for two hours each week is required of all first year students who are required to provide themselves with a suitable gymnasium costume.

### HOSPITAL PRIVILEGES

The Governors of the Kingston General Hospital agree to give those students who take out Hospital tickets (cost, \$2) all the advantages of a private room, including room, board, attendance of nurses in training, and ordinary medicines, when requiring medical or surgical treatment, from October 1st to May 1st. These benefits are conditional on 250 students taking out tickets before November 1st.

## ATTENDANCE AT CHURCH

All students are expected to attend the church of the denomination to which they profess to belong.

\*During the session, Sunday services are conducted at the University by ministers of different denominations who are invited to preach to the students, professors and visitors.

## HIGHER DEGREES

### DEGREE OF DOCTOR OF SCIENCE (D.Sc.)

The degree of D.Sc. is granted under the following conditions:—

- (1). A period of two years must elapse between graduation as M.D. and the completion of the course.
  - (2). Original and independent research in some subject of importance to medical science must be undertaken.
  - (3). The candidate must submit a thesis embodying the results of his research. The literary as well as the scientific quality of the thesis is to be taken into account in judging the candidate's fitness to proceed to the examination.
  - (4). The candidate must apply in writing to the Secretary at least two years before he proposes to present himself for final examination, and must submit the subject of his research for approval.
  - (5). The examinations upon subjects cognate to that of the thesis will be assigned by the Faculty and include a reading knowledge of scientific French or German.
- 

### DIPLOMA OF PUBLIC HEALTH (D.P.H.)

A. *For candidates who have taken the B.Sc., M.D. course.*

Such candidates will be entitled to enter for examination for this Diploma on presenting certificates of having taken: (1). Three months in attendance and clinical instruction in a Hospital for Infectious diseases; (2). Three months in a Bacteriological Laboratory, devoted to bacteriological aspects of Public Health; (3). One week in practical testing of milk and milk products for chemical constitution and common adulterations; (4). Six months with a recognized Medical Officer of Health in the practical study of Sanitation.

B. *For candidates proceeding to take this Diploma after graduation as M.D.*

Such candidates will be entitled to enter for examination for this Diploma on presenting certificates of having taken:

- (1). Three months' course in Sanitary Physics (principles of statics, pneumatics, hydraulics, light, photometry, heat, thermometry, hygrometry).

(2). Three months' course in Sanitary Chemistry, especially devoted to quantitative and qualitative analysis of air, water, and common foodstuffs; this course must include one week's work in practical testing of milk and milk products for adulteration or sophistication.

(3). Three months' course in a Bacteriological Laboratory devoted to bacteriological aspects of Public Health work, such as examination of sputum, blood, swabs, water and milk, and the detection of common animal parasites.

(4). Three months' course in advanced Hygiene, covering especially a discussion of sewage and garbage disposal, water supplies, disinfection, transmissible diseases, vital statistics and sanitary legislation.

(5). Three months' course in Sanitary Engineering, including water services, sewerage systems, sewage and garbage disposal.

(6) Three months' attendance and clinical instruction in a Hospital for Infectious Diseases.

(7). Six months with a recognized Medical Officer of Health in the study of practical sanitation.

## PRIZES AND HONOURS

The following prizes, scholarships and honours are awarded to students in the Faculty of Medicine.

### FACULTY PRIZES

A Faculty Prize of \$25 awarded to the student making the highest number of marks on the examinations of the first year.

A Faculty Prize of \$25 awarded to the student making the highest number of marks in the examinations of the fourth year.

### THE NEW YORK ALUMNI ASSOCIATION SCHOLARSHIP

The New York Alumni Association Scholarship of \$50 awarded to the student making the highest number of marks in the courses in Physiology and Histology of the second year (open also to Arts students in honour Animal Biology).

### THE N. F. DUPUIS SCHOLARSHIP

The N. F. Dupuis Scholarship of \$60 awarded to the student making the highest number of marks in the examinations in Chemistry of the second year. This Scholarship was founded by the graduates as a mark of their appreciation of the long and effective services of Dr. N. F. Dupuis, Emeritus Professor of Mathematics.

### THE DEAN FOWLER SCHOLARSHIP

The Dean Fowler Scholarship of \$50 awarded to the student making the highest number of marks in the examinations of the third year.

### UNIVERSITY MEDALS

A University Medal awarded to the student making the highest number of marks in the examinations of the fifth year in Clinical Medicine, Pathology, Sanitary Science, Jurisprudence and Mental Diseases.

A University Medal awarded to the student making the highest number of marks in the examinations of the fifth year in Clinical Surgery, Obstetrics, Gynaecology and Eye, Ear, Nose and Throat.

### HOSPITAL APPOINTMENTS

Three House Surgeoncies at the Kingston General Hospital, of twelve months each, awarded to three students of the fifth year. These appointments must be approved by the Board of Governors of the Kingston General Hospital. Applications for these appointments must be made to the Secretary of the Faculty not later than February 15th in each year.

Two House Surgeoncies at the Hotel Dieu, Kingston. Applications must be made to the Secretary of the Faculty not later than February 15th.

Two Clinical Assistantships on the staff of the Rockwood Hospital for the Insane during the summer. Applications must be made to Dr. Ryan, Superintendent, by whom the appointments are determined. Emphasis is laid on the special qualifications necessary for such work.

#### TEACHING FELLOWSHIPS

Four teaching Fellowships of the value of \$350 each, in Anatomy, Chemistry, Pathology and Bacteriology, and Physiology. These are open to members of the graduating class and are awarded upon the general record of the applicants and, if necessary, a competitive examination. Applications must be made to the Secretary of the Faculty not later than March 15th in each year.

#### EXHIBITION OF 1851, SCIENCE RESEARCH SCHOLARSHIP

This scholarship of the annual value of £150 stg., is awarded by His Majesty's Commissioners for the Exhibition of 1851 to students who have given evidence of capacity for original research, and (except in very special circumstances) are under 30 years of age.

The nominee must be a British subject, must have been a *bona-fide* student of this University for three years, must have been a student of this University for a full year immediately before his nomination, must be a student of this University at the time of his nomination (or he must have been a student at this University for a full year ending within twelve months prior to his nomination and since ceasing to be such student must have been engaged solely in scientific study), and must pledge himself not to hold any position of emolument whilst holding the scholarship. He is recommended to the Commissioners by the Senate of the University. The scholarship may be held for a second year, if the report of the first year's work be satisfactory to the Commissioners. The scholar will in the absence of special circumstances be required to proceed to an institution other than that by which he is nominated, and there pursue some investigation likely to promote technical industries or scientific culture. The particular investigation the student proposes to pursue must be stated before a scholarship can be awarded.

The next recommendation will be made by the Senate in April, 1919.

## REQUIREMENTS FOR LICENSE

A University Degree does not give the right to practice the profession of Medicine. It is also necessary to conform with the laws pertaining to the practice of Medicine in the province, state or country in which it is proposed to begin practice. The Medical Council of Canada issues a diploma which is accepted for registration in any province of the Dominion. Each province in Canada has a special standard of medical education and special requirements for license.

### DOMINION OF CANADA

The announcement of the Medical Council of Canada may be obtained from Dr. R. W. Powell, Registrar, Ottawa.

Students are advised to secure this qualification in preference to one from any provincial council.

### PROVINCE OF ONTARIO

The announcement of the College of Physicians and Surgeons of Ontario may be obtained from Dr. H. Wilberforce Aikens, Registrar, Toronto.

The matriculation examination is the examination conducted by the Education Department on the course prescribed for Junior Matriculation in Arts.

Graduates in Arts, and those who have passed Senior Arts Matriculation or the examination conducted at the end of the first year in Arts, are entitled to registration as matriculants.

Five years must be spent in actual professional studies. Four winter sessions of eight months each are required; the fifth or final year is devoted to clinical work.

Examinations are held at Toronto, Kingston and London.

One final examination is demanded at the end of the fifth year.

The fees are \$100.

The dates of examinations are found in the annual announcement.

### PROVINCE OF QUEBEC

Information as to qualifications for the practice of Medicine in the Province of Quebec may be obtained from Dr. Jos. Gauvreau, 55 St. Frs. Xavier, Montreal.

### PROVINCE OF NOVA SCOTIA

The regulations for candidates for the license of the Provincial Medical Board of Nova Scotia may be obtained from the Registrar in Halifax.

Examinations take place twice a year, beginning on the first Thursday in May and the last Thursday in August.

#### PROVINCE OF NEW BRUNSWICK

The Registrar, Dr. Stewart Skinner, St. John, N.B., will furnish details on application.

To become registered as a practitioner in this Province it is now necessary to pass examinations in all professional subjects.

The professional examinations are held in St. John once each year, commencing on the fourth Wednesday in June, and at other times when considered advisable.

#### PRINCE EDWARD ISLAND

The requirements for this Province are the same as those of New Brunswick, and there is reciprocity with New Brunswick and Nova Scotia.

#### MANITOBA

Dr. J. S. Gray, 358 Hargrave Street, Winnipeg, is the Registrar, and will, on request, send particulars. The fee for registration and license is \$75.00.

#### BRITISH COLUMBIA

The Registrar is Dr. A. P. Proctor, Victoria, B.C., to whom applications should be made for particulars. Examinations are held in the professional subjects, primary and final. The fee is \$100, and examinations are held twice a year, beginning the first Monday in May and the last Monday in October.

#### ALBERTA

License to practise medicine in the Province of Alberta is issued by the College of Physicians and Surgeons of Alberta, whose Registrar is Dr. George Macdonald, of Calgary. The examinations, however, for qualification to apply for license are under the direction of the Senate of the University of Alberta, and enquiries concerning these should be addressed to Cecil E. Race, Registrar of the University of Alberta, Edmonton. Examinations are held in the spring and fall of each year. Applications for the spring examinations must be made on the official forms, and must be in the hands of the Registrar of the University on or before April 1st, and for the fall examination on or before August 15th, in each year.

#### SASKATCHEWAN

Dr. Charlton, Regina, is Registrar for Saskatchewan.

#### GREAT BRITAIN AND IRELAND

The General Council of Medical Education and Enregistration has general supervision over the various licensing and examining Boards and keeps the Medical Registrar. Enrolment on the Register entitles one to register not only in Great Britain, but in most British Colonies (except Canada). The main licensing and examining bodies recognized in Great Britain apart from the universities are as follows:—

In England—The Conjoint Board of the Royal College of Surgeons of England and Royal College of Physicians of London. Information can be obtained from the Secretary, Examination Hall, Victoria Embankment, London, W.C.

In Ireland—The Conjoint Board of the Royal Colleges of Physicians and Surgeons of Ireland, of which Board the Secretary is Mr. Greenwood Pim, 6 Kildare Street, Dublin.

In Scotland—The Conjoint Board of the Royal Colleges of Physicians and Surgeons of Edinburgh and the Faculty of Physicians and Surgeons of Glasgow. Information can be obtained from Mr. George Robertson, 54 George's Square, Edinburgh, or from Mr. Alexander Duncan, 242 St. Vincent Street, Glasgow.

Certificates of Queen's University Medical Faculty are accepted by these Boards, so that those possessing the degree of M.D. from Queen's University are entitled to all the privileges in Great Britain that are accorded to students and graduates of other Colonial Colleges and Universities.

#### UNITED STATES

The Journal of the American Medical Association publishes an Abstract of the Laws regulating the Practice of Medicine in the various States and Territories of the United States. The price of the pamphlet is 30c, and it may be obtained by addressing the "American Medical Association," 103 Dearborn Street, Chicago, Ill.

#### NEW YORK STATE

All communications concerning license examinations should be addressed to "Examination Department," University of the State of New York, Albany, N.Y.

Examinations are held at New York, Albany, Syracuse and Buffalo, in the months of January, May and September.

# COURSES AND METHODS OF INSTRUCTION

## ANATOMY

### A

#### DESCRIPTIVE ANATOMY

PROFESSOR—G. E. Kidd, B.A., M.D., C.M. (on active military service).

ASSISTANT PROFESSOR—J. F. Sparks, B.A., M.D., C.M.

LECTURER—S. J. Keyes, M.D., C.M.

DEMONSTRATOR—S. M. Polson, M.A., M.D., C.M. (on active military service).

DEMONSTRATOR—J. P. Quigley, M.A., M.D., C.M. (on active military service).

DEMONSTRATOR—H. E. Day, M.D., C.M.

FELLOW—D. C. Matheson, M.B.

#### FIRST YEAR

- (a) A series of lectures on general anatomy, outlining the different tissues, systems, etc., of the body.
- (b) The study of the bones of upper and lower extremities. Special demonstrations are given to small sections of the class.
- (c) Complete dissection of upper and lower extremities, as outlined in Cunningham's "Manual of Practical Anatomy."
- (d) Review and demonstration in dissecting room, twice weekly.  
*Lectures—Monday and Thursday at 1.*

#### SECOND YEAR

- (a) The study of the bones of the head and trunk.
- (b) Complete dissection of head and neck, abdomen and thorax.
- (c) A series of twenty-four lectures on the development and structure of the central nervous system.
- (d) Demonstrations on the organs of special sense and viscera.
- (e) Review and demonstration in the dissecting room twice weekly.  
*Lectures—Tuesday at 10 and Friday at 9.*

Students must dissect the whole of the human body during the course. Preliminary and final oral examinations are required from each student, on each part dissected, and no certificate is given unless the examinations are satisfactory. Besides these, final written examinations are held at the close of the Spring term. Students must complete the dissection and pass all oral examinations before being allowed to proceed with the written examinations.

A complete set of bones of the extremities is loaned to each first year student. Bones of the head and trunk are loaned to second year students.

All lectures and demonstrations are illustrated by carefully dissected moist and dry preparations, frozen sections, plates, photographs and drawings. Special demonstrations are given on the bones, brain, organs of special sense and viscera.

The dissecting rooms are open from 9 a.m. to 5 p.m., and during the hours for dissection the professors and demonstrators are in constant attendance guiding and assisting the work of the students. One entire flat of the Medical Building is devoted to anatomical purposes. The dissecting rooms are large, well lighted and thoroughly ventilated. An abundance of the best dissecting material, prepared in the most approved manner, is constantly on hand for the use of the students.

Arrangements can be made by graduates and others for the use of the dissecting room and for material for special study and research.

#### BOOKS OF REFERENCE

Cunningham's Dissecting Manual; Cunningham's Textbook; Gray; Pier-sol; Villager, Brain and Spinal Cord; Fagge; Rawling, Surface Markings.

### B

#### MEDICAL AND SURGICAL ANATOMY

PROFESSOR—Edward Ryan, B.A., M.D. (on active military service).

ASSOCIATE PROFESSOR—C. A. Morrison, M.D., C.M.

#### FOURTH YEAR

The students are taught the application of the knowledge of anatomy, gained in the first and second years, to medicine and surgery. Special attention is directed to anatomical relations, ligature of arteries, displacements in fractures and dislocations, and topographical anatomy.

*Monday at 11, Wednesday at 10 and Friday at 11, Medical Building.*

#### BOOKS OF REFERENCE

Treves and Keith, Mundell, Davis, Deaver.

---

### ANIMAL BIOLOGY

PROFESSOR—A. P. Knight, M.A., M.D., F.R.S.C.

LECTURER IN MORPHOLOGY—A. B. Klugh, M.A.

LECTURER IN HISTOLOGY—T. Little, M.B. (on active military service).

### FIRST YEAR

1.—*Animal Biology*. Students of the first year attend a course of lectures and demonstrations in general animal biology given twice a week for half the session. The course is an elementary one and is designed as an introduction to the subject.

*Wednesday at 2 and Friday at 1, first half year.* Professor Knight.

2.—*Histology*. A course of microscopic demonstrations upon the tissues and organs of the mammal is given three hours a week throughout the session. A large number of sections of both fresh and prepared tissues are furnished to each student for examination under the microscope. These sections must be carefully studied, drawn and described in a blank book specially provided for the purpose.

*Section A, Tuesday, 1-3. Section B, Tuesday, 10-12.*

A microscope can be rented for \$5 per session; or one can be purchased for \$48, payable at once or in yearly instalments of \$16.

Each student must provide himself with a set of histological slides. The slides may be obtained:

1. By purchase at the college; 1st year slides \$2.50, 2nd year slides \$5.00.
2. By rental at the college: 1st year slides \$1.25, 2nd year slides \$2.50.

A student renting slides must deposit full price of same and on the return of the slides fifty per cent. refund will be given to him, less 25 cents for each slide destroyed.

3. By purchase elsewhere of slides. These must be approved by the professor.

### SECOND YEAR

3.—*Advanced Histology*. This course is completed in January of the second year, three hours per week being devoted to it. All students are taught how to prepare and mount microscope specimens.

During the remainder of the second year an introductory course of three hours a week is given in the embryology of the chick and the pig.

*Section A, Wednesday 10-12; Section B, Saturday 10-12. Lecture, Monday at 11.*

### THIRD YEAR

4. This course comprises a study of the microscopic animals found in water, the tapeworm and other parasitic worms, the mosquito, house-fly and other animals important from a medical standpoint. Mr. Klugh.

5. A course of lectures on heredity. Hours to be arranged.

Mr. Klugh.

Text-books:—Wells and Davies, A Text-book of Zoology (Course 1).

Hill, Manual of Histology (Course 2).

Jordan and Ferguson, A Text-book of Histology (Course 3).

McFarland, Medical Biology (Course 4).

Walter, Genetics (Course 5).

## BIOLOGICAL CHEMISTRY

PROFESSOR—A. P. Lothrop, M.A., Ph.D.

ASSISTANT PROFESSOR OF CHEMISTRY—John Waddell, D.Sc., Ph.D.

### FIRST YEAR

#### 1. *General Chemistry.*

(a) A course of three lectures a week on the fundamental laws and theories of general chemistry, including a description of the common elements and compounds and a discussion of elementary physical chemistry and the theory of qualitative analysis. The lectures are fully illustrated by class-room demonstrations.

(b) The lecture discussions are closely paralleled by laboratory practice, which includes exercises in qualitative and volumetric analysis.

*Lectures—Monday at 2, Tuesday at 9 and Wednesday at 3.*

*Laboratory—Thursday 2-5 and Friday 9-12.*

Drs. Lothrop and Waddell.

Text-books:—McPherson and Henderson: *A Course in General Chemistry*, and *Laboratory Manual of General Chemistry*.

The course in Junior Chemistry (Arts Calendar) will not be accepted as equivalent to the first year medical chemistry unless offered in conjunction with the elementary course in qualitative analysis (Senior Chemistry).

### SECOND YEAR

#### 2. *Organic and Physiological Chemistry.*

(a) In the lectures a study is made of the elementary principles of organic chemistry and its compounds which is essential as a foundation for physiological chemistry. Special emphasis is laid on the carbohydrates, lipoids and proteins. This study is followed by a discussion of the chemical processes involved in respiration, secretion, digestion, absorption, metabolism and excretion, and the chemistry of the tissues.

(b) During the first half year the properties of the more important classes of organic compounds of both the aliphatic and benzene series are studied in detail in the laboratory. Special attention is directed to the carbohydrates and lipoids.

In the second half year knowledge is gained of physiological chemistry by a study of the physical and chemical properties of proteins and enzymes, by laboratory experiments on foods, digestion, bile, secretions, blood, tissues and by qualitative and quantitative examination of normal urine.

*Lectures—Monday, Wednesday and Saturday at 9.*

*Laboratory—Section A, Tuesday, 1-4, and Wednesday, 10-12; Section B, Thursday, 9-12, and Saturday, 10-12.*

Dr. Lothrop.

Text-books:—Moore: Outlines of Organic Chemistry.

Hawk: Practical Physiological Chemistry.

Lothrop: A Laboratory Course in Organic and Physiological Chemistry.

#### ELECTIVE COURSE

3. A course designed for advanced students who desire to do special work in biochemistry. The laboratory work will include the preparation of typical biological products and a study of biochemical methods of analysis. Hours to be arranged.

Dr. Lothrop.

#### BOOKS OF REFERENCE

Smith: General Chemistry for Colleges. Stieglitz: Qualitative Chemical Analysis, Part I. Holland: Medical Chemistry. Philip: Physical Chemistry: Its Bearing on Biology and Medicine. Norris: Principles of Organic Chemistry. Cohen: Theoretical Organic Chemistry. McCollum: Organic Chemistry for Students of Medicine and Biology. Plimmer: Practical Physiological Chemistry. Cole: Practical Physiological Chemistry. Hammarsten: A Text-book of Physiological Chemistry. Mathews: Physiological Chemistry. Lusk: The Science of Nutrition. Sherman: The Chemistry of Food and Nutrition. Halliburton: Chemical Physiology. Monographs on Biochemistry.

---

#### BOTANY

PROFESSOR—W. T. MacClement, M.A., D.Sc.

ASSISTANT PROFESSOR—Guilford B. Reed, B.Sc., Ph.D.

#### FIRST YEAR

1. The gross anatomy and chief physiological processes of plants.
2. A brief outline of the morphology of the vegetable kingdom, beginning with Cyanophyceae and Bacteria, through Algae, Water Molds, Mildews, Rusts, Toadstools, Liverworts and Mosses, Ferns, Horsetails and Clubmosses to the Seed Plants.
3. The classification of the native plants important in medicine and toxicology.

*Lectures—Wednesday at 1 and Thursday at 9.* Professor Reed.

Textbook:—Bergen and Caldwell, Practical Botany.

### THIRD YEAR

The morphology and physiology of the Fungi and Bacteria, the general physiology of the cell, and enzyme reactions.

Professor Reed.

---

### EYE, EAR, NOSE AND THROAT

PROFESSOR—J. C. Connell, M.A., M.D.

CLINICAL ASSISTANT—S. M. Polson, M.A., M.D. (on active military service).

The course consists of lectures, clinics and demonstrations throughout the fourth and fifth years. Practical lessons in the use of the ophthalmoscope and laryngoscope are given to the classes in sections.

### FOURTH YEAR

*Tuesday and Wednesday at 9, General Hospital.*

### FIFTH YEAR

*Monday and Thursday at 9, General Hospital.*

### BOOKS OF REFERENCE.

Swanzy, Fuchs, Gleason, St. Clair Thompson.

---

## GYNAECOLOGY

PROFESSOR—G. W. Mylks, M.D., C.M.

### FOURTH YEAR

The course includes methods of pelvic examination, the disorders of menstruation, diseases of the female generative organs, injuries to the pelvic floor, urinary bladder and rectum, malformations and displacements of the uterus, extra-uterine pregnancy and benign and malignant growths affecting the female genitalia.

At the Hospital, demonstrations are given in the technique, post-operative treatment and instruments used in gynaecologic cases, also in the application of pessaries and such local treatments as douches, tamponade, etc. The various pelvic and vaginal operations are performed before sections of the class.

*Lectures—Tuesday at 1 and Wednesday at 11, Medical Laboratories.*

### FIFTH YEAR

The work of the fifth year is taken up in the hospitals and is largely clinical and operative, including special methods of examination such as cystoscopy, etc. Special attention is given to the pathology of pelvic growths.

*Clinics—Thursday at 10 and Friday at 9, General Hospital.*

### BOOKS OF REFERENCE

Herman, Eden, Ashton, Gilliam, Penrose, Kelly, Gardner, Polak.

---

## HISTORY OF MEDICINE

### FIFTH YEAR

*Friday at 3.*

Dr. J. C. Connell.

---

## MATERIA MEDICA, PHARMACY AND PHARMACOLOGY

PROFESSOR—A. E. Ross, B.A., M.D., C.M.G. (on active military service).

PROFESSOR OF PHARMACOLOGY—S. M. Asselstine, M.D., C.M.

ASSISTANT PROFESSOR—J. F. Sparks, B.A., M.D.

### SECOND YEAR

The course in the second year consists of preliminary lectures on the definitions, measures, pharmaceutic methods, and special pharmaceutical preparations. This is followed by a course of lectures on the classification, sources and preparation of drugs. The laboratory course consists of practical demonstrations of drugs with preparations and their solubilities and incompatibilities, special stress being laid on the more important and commonly used drugs.

*Tuesday at 9, Wednesday at 1 and Friday at 11, Medical Building.*

Dr. Sparks.

### THIRD YEAR

In the lectures to the third year, special attention is paid to the pharmacological action of drugs. The course in experimental pharmacology consists in experiments performed by the students, under supervision of the Professor.

*Lectures—Monday and Thursday at 11.*

*Laboratory—Sec. A, Tuesday, 1-3; Sec. B, Thursday, 1-3.*

*Medical Building, Dr. Asselstine.*

### BOOKS OF REFERENCE

Sollman, Bruce and Dilling, Cushney, Meyer-Gottlieb, Bastedo and Lauder Brunton. Eggleston: Prescription writing.

## MEDICAL JURISPRUDENCE

PROFESSOR—A. E. Ross, B.A., M.D., C.M.G. (on active military service).

LECTURER—J. M. FARRELL, B.A.

### FIFTH YEAR

This class includes a course in Toxicology, in which the action of poisons, general evidence of poisoning and classification of poisons are discussed, and reference is made to symptoms, chemical tests and post-mortem appearances.

The course in Jurisprudence includes documentary and oral evidence, identification, real and apparent death, autopsies, the taking down of evidence; the appearance of wounds and other external injuries before and after death; effects of suffocation, drowning; the detection of blood stains, seminal fluids, etc.; the evidence of rape, criminal abortion, concealment of pregnancy and infanticide; insanity, feigned diseases, impotence, sterility, legitimacy, life assurance and malpractice. The lectures are illustrated with plates and specimens.

*Monday and Tuesday at 4, Medical Building.*

Dr. Ross

### BOOKS OF REFERENCE

Poore, Reese, Herold, Taylor, Hamilton, Tidy, Witthaus and Becker, Peterson and Haines, Glaister, Draper, Cathell.

---

## MEDICINE AND THERAPEUTICS

PROFESSOR OF MEDICINE AND CLINICAL MEDICINE—Jas. Third, M.D., Tor.

ASSOCIATE PROFESSOR OF CLINICAL MEDICINE—Edward Ryan, B.A., M.D. (on active military service).

LECTURER—Wm. Gibson, M.D., C.M.

LECTURER IN MEDICINE AND THERAPEUTICS—E. C. D. MacCallum, M.D., C.M.

LECTURER IN THERAPEUTICS—S. M. Asselstine, M.D., C.M.

CLINICAL ASSISTANT—H. A. Boyce, M.D., C.M.

CLINICAL ASSISTANT—H. E. Day, M.D., C.M.

CLINICAL ASSISTANT—J. P. Quigley, M.A., M.D., M.R.C.S., Eng.; L.R.C.P., Lond. (on active military service).

CLINICAL ASSISTANT—W. K. Ross, M.D., C.M.

DEMONSTRATOR IN ANAESTHESIA—S. J. Keyes, M.D., C.M.

ASSISTANT IN ANAESTHESIA—J. G. Wright, M.D., C.M.

A

MEDICINE

THIRD YEAR

In the third year a short course of lectures is given on Haematology. The didactic and the clinical work are correlated by a parallel study of the pathological conditions of the blood in the laboratory (clinical microscopy). These lectures are illustrated by patients from the wards of the General Hospital, the Hotel Dieu and from the out-patient departments of these institutions.

*Wednesday at 9.*

Dr. Gibson.

Clinical methods, two hours a week, are taught throughout the session. The first half of the session is devoted to a study of the normal physical signs, the second half to the abnormal, with their clinical significance.

*Monday and Thursday at 10 (sections).* Drs. Quigley, Boyce and Day.

Each student is required to perform the clinical laboratory investigations, according to printed forms obtainable from the instructor, of at least five cases, (blood, urine, stomach contents). These reports must be initialed by the instructor and passed on to the head of the department for permanent record.

TEXT-BOOKS

Medicine:—Osler, Taylor, Anders.

Clinical methods:—O'Reilly, Hutchison and Rainy.

Instruments:—stethoscope, clinical thermometer, microscope with oil immersion, haemoglobinometer, haemocytometer.

FOURTH YEAR

The work of the fourth year is largely clinical.

A course of lecture-clinics, two hours a week, is given in the clinical theatre of the General Hospital. These lectures are illustrated by lantern slides and by patients selected from the out-patient department.

*Monday and Wednesday at 2.*

Dr. MacCallum.

Clinical instruction, three hours a week, is given in the wards of the General Hospital, the Hotel Dieu, and in the clinical theatres of these institutions.

*Tuesday at 11 (A). General Hospital.*

Dr. MacCallum.

(B). *Hotel Dieu.*

Dr. Quigley.

*Thursday at 10 General Hospital.*

Dr. Third.

*Friday at 11 (A). Hotel Dieu.*

Dr. Gibson.

(B). *General Hospital.*

Dr. MacCallum.

History Taking:—Dr. Boyce, assisted by the house-physicians of the General Hospital and Hotel Dieu.

*Monday at 11, Tuesday at 10 and Thursday at 11.*

The clinical laboratory in the General Hospital is open from 8 a.m. to 6 p.m.

Each student must write in the history-book prepared for the purpose and according to the printed plan on the second page, the history of each case assigned him. A full laboratory report, duly initialed by the instructor, must be entered. No book will be accepted unless at least six cases are written up. These reports are criticized and valued from time to time throughout the session and their values entered in the permanent records.

History books may be obtained from the secretary of the General Hospital.

At the bedside, the student is expected to give the history of the case orally. Written and clinical tests are held every six weeks.

#### TEXT-BOOKS

Medicine:—Osler, Taylor, Anders.

Clinical Medicine:—Rainy and Hutchinson, Cabot, Latham and Torrens, Webster, Sahli.

Dermatology:—Sequeira, Walker, Stelwagon, Hyde.

Instruments:—In addition to those used in the third year, a sphygmomanometer.

#### FIFTH YEAR

The work of the fifth year is wholly clinical. Ample provision has been made in the time-table for history-taking and laboratory work.

Each student must write in the history-book prepared for fifth year students the history of each case assigned him. A full laboratory report duly initialed by the instructor must be attached. In case of death of the patient, the post-mortem report must be included. No book will be accepted unless six cases are written up. These case reports are criticized and valued at regular intervals during the session.

Clinical tests are held every six weeks. No student is admitted to the April examinations who has failed to make 50% on his work of the session.

A complete record of the student's work throughout the third, fourth and fifth years is kept and this record is considered in determining his final standing.

<i>Monday at 10.</i>	<i>General Hospital.</i>	<i>Dr. Third.</i>
----------------------	--------------------------	-------------------

<i>Tuesday at 10 (A).</i>	<i>General Hospital.</i>	<i>Dr. Third.</i>

*Dr. MacCallum.*

*Friday at 10.*

*Clinical Conference, General Hospital.*

Dr. Third.

Groups of students are taken in rotation to the Nickle building, General Hospital, for the study of infectious diseases. Dr. Asselstine.

Demonstrations in radiography, electrotherapy and x-ray therapy are given weekly at the General Hospital, *Saturdays*, 9-11. Dr. Boyce.

Demonstrations in bacterio-therapeutics are given in the wards of the General Hospital and Hotel Dieu as occasion arises. Dr. Gibson.

Sections of the class are taken from time to time to the House of Refuge and House of Providence for the study of diseases at present regarded as incurable. Dr. Third and Dr. Gibson.

Patients in the out-patient department who require to be followed up in their homes are assigned to members of the fifth year. Histories of these cases, if approved, may be included in the regular case-book. This experience is most helpful to the young practitioner.

#### TEXT-BOOKS

Medicine:—Osler, Taylor.

Clinical Medicine:—Rainy and Hutchinson, Cabot, Latham and Torrens, Musser, Wilson, Webster, Sahli, Emerson.

Dermatology:—Sequeira, Walker, Stelwagon, Hyde.

Neurology:—Dana, Campbell Thomson.

All the modern text-books and works of reference are to be found in the library and may be consulted from 2 to 5 each week day, except Saturday.

Instruments:—In addition to those used in the previous years, an ophthalmoscope.

#### B

#### THERAPEUTICS.

##### FOURTH YEAR.

An introductory course of six lectures is given on the general principles of therapeutics at the beginning of the term. On the completion of this course, demonstrations on the various methods of dealing with disease are given in the wards of the General Hospital and Hotel Dieu. These demonstrations follow closely the order of the clinics and in this way disease, and the methods of dealing with it, are linked together. Massage, dietetics and prescription writing are included in this course.

*Tuesday at 2, General Hospital or Hotel Dieu.* Dr. MacCallum.

One lecture a week is devoted to the recognition, prophylaxis and treatment of the exanthemata. At the close of each lecture, sections of the class are taken to the Nickle Building for clinical instruction. This course includes vaccination.

*Thursday at 3, General Hospital.*

Dr. Asselstine.

#### FIFTH YEAR

In the fifth year general therapeutics is merged with clinical medicine and is taught wholly at the bedside.

Electrotherapeutics and bacteriotherapeutics are taught by Dr. Boyce and Dr. Gibson, respectively, in the medical clinic.

Instruction in anaesthesia is given daily by Dr. Keyes and Dr. Wright in the various theatres, to small groups of students. A certificate of efficiency in the administration of anaesthetics must be presented by each student before being admitted to the final examination.

#### TEXT-BOOKS

Hutchison and Collier, Yeo, Latham and English, Hare, Forcheimer.

---

#### OBSTETRICS

PROFESSOR—A. R. B. Williamson, M.A., M.D., M.R.C.S., Eng.;  
L.R.C.P., London.

#### FOURTH YEAR

For fourth year students the course in Obstetrics includes the anatomy of the pelvis; anatomy, anatomical relations and physiology of the organs of generation; menstruation, ovulation and conception; development of the embryo, foetus and foetal appendages; the diagnosis of pregnancy, phenomena and management of normal labor; management of the mother and infant during the puerperal period; mechanism and management of labor for the several presentations and positions; delivery by forceps; by version; hemorrhage during pregnancy and post partum.

*Thursday and Friday at 1, Medical Laboratories.*

#### FIFTH YEAR

In the fifth year the pathology of pregnancy, parturition and the puerperium is taken up. Under this heading are considered the diseases of the membranes and placenta; the diseases and disorders of pregnancy; the effects of certain diseases on pregnancy and parturition; dystocias resulting from deformed pelvis, faulty mechanism, mal-presentations and positions; ante-partum and post partum hemorrhage; diseases incident to the puerperium. The lectures are illustrated by the artificial pelvis, drawings and models. The class is admitted to the practice of the maternity wards of the Hospital where practical instruction is given in the management and care of such cases.

*Monday and Tuesday at 1, Medical Laboratories.*

#### BOOKS OF REFERENCE

Obstetrics—Eden, Galabin and Blacker, Hirst, Webster, Dorland, Garrigue, American Text-Book of Obstetrics, Peterson, Jewett, King's Manual.

## PATHOLOGY AND BACTERIOLOGY

PROFESSOR—W. T. Connell, M.D., M.R.C.S., Eng., L.R.C.P., Lond.

ASSISTANT PROFESSOR—W. Gibson, M.D.

DEMONSTRATOR—T. Little, M.B. (on active military service).

FELLOWS—M. E. Hall, M.B., and K. A. Denholm, M.D.

### THIRD YEAR

1. Pathology. Students of the third year attend a course of lectures and demonstrations on general pathology covering four hours per week.

During this session a series of microscopic sections illustrating the lectures are prepared and demonstrated.

*Lectures—Monday and Tuesday at 9.*

*Demonstration—Friday, 9-11.*

2. Bacteriology. Four hours per week during the session are occupied by lectures and practical instruction in this subject, the latter occupying three hours each week.

*Lecture—Tuesday at 10.*

*Laboratory—Monday, 3-5, and Saturday, 9-10.*

3. Clinical Microscopy. Three hours each week are spent in instruction on chemical and microscopical examination of urine, blood, gastric contents, faeces, exudates and transudates, utilizing material obtained from the Hospitals.

*Lecture—Wednesday at 9.*

*Laboratory—Friday, 3-5.*

### FOURTH YEAR

4. Pathology. Students of the fourth year attend a series of lectures and demonstrations on Systemic Pathology, five hours per week, during the session. Gross specimens illustrative of lectures are demonstrated and students are required to mount microscopic sections representative of the main lesions in various organs and tissues of the body.

*Lectures—Wednesday at 1 and Thursday 9-11.*

*Demonstration—Saturday, 10-12.*

5. Clinical Microscopy. Each student, when assigned to cases in Hospital wards, is required to make the microscopic and chemical examinations necessitated by the nature of case. Assistance in these examinations is given by officials of the Department of Pathology.

### FIFTH YEAR

6. A practical course in serum study and vaccine therapy is given two hours each week during the session.

*Monday at 2 and Wednesday at 9.*

Students in rotation assist in making autopsies and are required to report on at least ten autopsies. Autopsies may be attended by students of the fourth year.

Each student must provide himself with a microscope and a set of pathological slides, the fees for which must be paid with class fees.

A microscope can be rented for \$5 per session.

Third and fourth year slides can be obtained,

(1) By purchase at the college; \$5 each session.

(2) By rental at the college; \$2.50 each session.

A student renting slides must deposit the full price of same. On return of slides a fifty per cent. refund is made less 25 cents each for slides destroyed or lost.

(3) By purchase elsewhere of slides. These slides must be approved by the Professor.

#### APPROVED TEXTBOOKS

Pathology:—Adami and McCrea, Delafeld and Prudden, McCallum, Hewlett, Beattie and Dickson.

Pathological Histology:—Mallory.

Pathological and Bacteriological Technique:—Connell, Mallory and Wright, Eyre.

Bacteriology:—Jordan, Hiss and Zinsser, Park.

Clinical Microscopy—Simon, Stitt, Todd.

---

### PEDIATRICS

PROFESSOR—G. W. Mylks, M.D., C.M.

#### FOURTH YEAR

This course is taken in the fourth year. It includes the general care and management of infants; clinical investigation of diseases in infants; injuries and diseases of the newly born; nutrition; derangements of nutrition; diseases due to faulty nutrition; diseases of the digestive system; respiratory diseases; acute infectious diseases, etc.

*Monday at 1, Medical Laboratories.*

#### BOOKS OF REFERENCE

Still, Hutchison, Fordyce, Holt, Tuttle, Fischer, Ruhrah, Chapin and Pisek, Sheffield.

## PHYSICS

PROFESSOR—A. L. Clark, M.A., Ph.D., F.R.S.C.

ASSISTANT PROFESSOR—J. K. Robertson, M.A.

LECTURER—V. E. Pound, M.A., Ph.D.

### FIRST YEAR

1. A course of two lectures per week throughout the year, emphasizing those parts of Physics of importance to students of Medicine.

2. Four hours per week in the laboratory. This course consists of experiments in which the principles developed in the lectures are applied.

*Lectures—Monday at 11 and Wednesday at 9. Professor Robertson.*

*Laboratory—Section A, Tuesday and Thursday, 10-12; Section B, Monday, 9-11, and Tuesday, 1-3.*

Professor Robertson and Dr. Pound.

Textbook: Kimball, College Physics.

---

## PHYSIOLOGY

PROFESSOR—A. P. Knight, M.A., M.D., F.R.S.C.

ASSISTANT PROFESSOR—T. L. Patterson, M.A., M.Sc., F.R.S.A.

FELLOW—

In this department are offered courses which are suited for providing the preparation in the science of Physiology that is indispensable to the study and practice of medicine; courses which afford the student an opportunity for acquiring a more thorough and complete preparation for following intelligently the rapid advances in modern physiology and other medical subjects; and courses which are indispensable for those who intend to assist in this advance by devoting themselves in part or exclusively to research in medical subjects, after completing their medical course.

The required courses in Physiology are arranged to cover a period of three sessions and consist of lectures, demonstrations, written and oral quizzes, informal conferences, and laboratory work and study.

### FIRST YEAR

1.—*Elementary Physiology.* Instruction in elementary physiology is given in the second half year following the completion of the course in general animal biology (page 42).

*Wednesday at 2 and Friday at 1. Second half year..*

Professor Knight.

2.—*Physiologic Anatomy*. This is a purely laboratory course based on the dissection of the rabbit. Emphasis is laid on the physiological rather than the anatomical side. Thus a detailed study is made of the muscles of mastication, deglutition, respiration, defecation, micturition and vomiting, as well as of the different systems of organs including the glands of internal secretion. The class is divided into two sections.

*Section A, Monday 9-11; Section B, Wednesday, 10-12.*

Professor Patterson and .....

## SECOND YEAR

3.—*Intermediate Physiology*. The subject is discussed didactically in the following order: Physiology of the blood, circulation and respiration; the physiology of secretion, digestion, absorption, metabolism and excretion; the physiology of muscle and nerve, central nervous system and special senses.

*Lectures—Monday at 11 and Friday at 10.* Professor Patterson.

4. *Experimental Physiology*. This is a purely laboratory course in the dynamics of muscle and nerve, nervous system, circulation and respiration, digestion, excretion, secretion, etc. The class is divided into two sections.

*Section A, Tuesday 1-4; Section B, Thursday 9-12.*

*Demonstrations—Tuesday at 11.*

Professor Patterson and .....

## THIRD YEAR

5.—*Advanced Physiology*. As a thorough understanding of advanced physiology can be acquired only through a knowledge of physics, chemistry, gross and microscopic anatomy, supplemented by experimental courses of laboratory instruction, the third year is devoted largely to correlating the work of the two preceding years in these five subjects, and in using it as a basis for the clinical instruction of the fourth and fifth years. Special emphasis is laid upon the study of the nervous system.

*Tuesday at 11, Wednesday at 10, Thursday at 9 and Friday at 11.*

Professor Knight.

## OPTIONAL COURSES

6.—*Special Mammalian Physiology*. This is a laboratory and lecture course intended for advanced laboratory students who may wish to do special work in this line of physiology. Hours to be arranged.

Professor Patterson.

7.—*Research in Physiology.* Properly qualified students are admitted to the laboratory for post-graduate study and special research. Hours to be arranged.

Professors Knight and Patterson.

8.—*General and Comparative Physiology* (at the Dominion Biological Station, St. Andrews, N.B.). Credit is given by Queen's University for work done at this station.

Professor Knight.

#### LABORATORY OF EXPERIMENTAL PHYSIOLOGY

This laboratory is fully equipped with the latest and most improved apparatus. Each student is trained to become familiar with the phenomena of life by objective and personal study. An abundant supply of material is provided for experiment and demonstration.

The laboratory is also well adapted for post-graduate study, and graduates and advanced students competent to undertake such work, who desire to pursue special physiological investigation, are given the opportunity under suitable regulations.

In course (4) a laboratory deposit of \$3.00 is required of each student, returnable at the end of the session minus the amount of breakage plus \$1.00 for wear and tear of apparatus. Special laboratory deposits are also required in courses 6 and 7, the amount depending on the length of the course and the nature of the work.

#### TEXT-BOOKS

- Huxley: *Physiology* (edited by Joseph Barcroft) (course 1).  
Patterson: *Physiologic Anatomy of the Rabbit—Syllabus* (course 2).  
Halliburton: *Handbook of Physiology* (course 3).  
Patterson: *Syllabus for Experimental Physiology* (course 4).  
Bainbridge and Menzies, *Essentials of Physiology* (course 5).

#### BOOKS OF REFERENCE

Howell: *Text-Book of Physiology*. Stewart: *Manual of Physiology*.  
Brubaker: *Text-Book of Physiology*. Tigerstedt: *Text-Book of Physiology*. Starling: *Principles of Human Physiology*. Luciani: *Human Physiology* (Vols. I-V). Hemmeter: *Manual of Practical Physiology*.  
Stirling: *Practical Physiology*. Sherrington: *The Integrative Action of the Nervous System*. Pawlow: *Work of the Digestive Glands*. Cannon: *Mechanical Factors of Digestion*. Biedl: *The Internal Secretory Organs; their Physiology and Pathology* (English translation). Cannon: *Bodily Changes in Pain, Hunger, Fear and Rage*. Carlson: *The Control of Hunger in Health and Disease*.

## PSYCHIATRY

PROFESSOR—

### FIFTH YEAR

This course of lectures is delivered at Rockwood Hospital for Mental Diseases. It includes a consideration of insanity in its various forms, special attention being devoted to diagnosis and treatment. Students are required to write the histories of various mental cases.

*Thursday at 2.*

### BOOKS OF REFERENCE

Church and Peterson, White, Kraepelin, Defendorf.

---

## SANITARY SCIENCE AND PREVENTIVE MEDICINE

PROFESSOR—W. T. Connell, M.D., M.R.C.S., Eng., L.R.C.P., Lond.

### FIFTH YEAR

The lectures are taken during the fifth year, and include the subjects of food, water, air and ventilation, sewage disposal, dwellings, hospitals, climate and soil in their relation to public health. The nature, methods of spread and means of prevention of the infective diseases are also considered, including isolation, disinfection, quarantine, preventive inoculation and serum therapy. Vital statistics and the laws governing control of public health are discussed.

*Tuesday and Wednesday at 2.*

### BOOKS OF REFERENCE

Notter and Firth, Bergey, Harrington, Glaister.

---

## SURGERY

PROFESSOR—D. E. Mundell, B.A., M.D., F.A.C.S.

PROFESSOR OF CLINICAL SURGERY—W. G. Anglin, M.D., M.R.C.S., Eng.

ASSOCIATE PROFESSOR OF CLINICAL SURGERY—E. Ryan, B.A., M.D.  
(on active military service).

ASSISTANT PROFESSOR—C. A. Morrison, M.D.

ASSISTANT PROFESSOR—F. Etherington, M.D. (on active military service).

CLINICAL ASSISTANT—H. E. Boyce, M.D.

CLINICAL ASSISTANT—H. E. Day, M.D.

CLINICAL ASSISTANT—R. J. Gardiner, M.D.

CLINICAL ASSISTANT—R. Hanley, M.D.

CLINICAL ASSISTANT—S. J. Keyes, M.D.

### THIRD YEAR

In the third year one lecture is given weekly on inflammation and its effects, general systemic diseases, suppurative processes, asepsis, wounds, etc. A weekly clinic is held in minor surgery, bandaging, etc.

*Lecture—Wednesday at 10; Clinic—Saturday at 11.*

### FOURTH YEAR

In the lectures of the fourth year are discussed diseases of the arteries, veins, nerves, muscles and tendons; fractures and dislocations; diseases of the bones and joints; deformities of the limbs and spine and diseases of the abdominal viscera. Three clinics are conducted weekly.

Instruction is also given in Radiography in which the student is taught the construction of the X-ray machine and to take radiograms personally.

*Lectures—Monday at 9, Wednesday at 3 and Friday at 9, Medical Building.*

*Clinics—Monday at 4.30, Ongwanada Hospital.*

*Tuesday at 11, Hotel Dieu.*

*Thursday at 11, General Hospital.*

### FIFTH YEAR

The fifth year is devoted chiefly to clinical surgery, there being but one lecture weekly on the surgery of the thorax, head and neck. Four clinics are held weekly, one each at the General Hospital, Hotel Dieu, Rockwood Hospital and Ongwanada Hospital.

Ample provision is made for operative surgery on the cadaver by two weekly demonstrations in which the student performs the operation in all its details under the supervision of the instructor.

A special course is also given at the General Hospital in the use of the cystoscope and in ureteral catheterization.

*Lecture—Tuesday at 3.*

*Clinics—*

### BOOKS OF REFERENCE

Rose and Carless; Russell Howard; Whitman, Orthopedic Surgery; Foote, Minor Surgery; Kelly-Noble, Surgery; Martin, Surgical Diagnosis; Kocher; Treves, System of Surgery; Pye, Surgical Handicraft; Morrow, Technic; Thomson and Miles; MacLennan, Surgical Materials; Scudder, Fractures.

## ALPHABETICAL LIST OF GRADUATES

---

Graduates or others who notice any error or omission in the following list, either as to the names of the graduates, their titles or places of residence, will confer a favour by notifying DR. WILLIAMSON, Secretary of the Faculty.

- Abbott, G. A., M.D., C.M., 1895, Watertown, N. D.  
 Abbott, Rodney H., M.D., C.M. 1879, Amherstburg.  
 Adams, Geo. T. C., M.D., C.M. 1892, Melbourne, Australia.  
 Adams, Joseph, M.D., C.M. 1892, Plevna.  
 Adamson, Herbert A., M.D., C.M. 1892, Richmond City, Utah.  
 Allen, A. T., M.D., C.M. 1887, Deadwood, S.D.  
 Allen, Jas. Ross, M.D., C.M. 1894, Olean, N.Y.  
 Allison, D. M., M.D., C.M. 1900, Camden, N.Y.  
 Alway, Enoch, M.D., C.M. 1869, Bartonville.  
 Ames, A. J., M.D., C.M. 1895, West Henrietta, Munroe Co., N.Y.  
 Amos, W. W., M.D., C.M. 1902, Prince Albert, Sask.  
 Amys, C. M., M.D., C.M. 1899, Peterboro.  
 Anderson, F.C., B.A. 1900, M.B. 1912, M.D., C.M. 1913, Ottawa.  
 Anderson, N. W., M.D., C.M. 1898, Lumsden, Sask.  
 Anderson, W. E., Ph.G., M.D., C.M. 1910, Millet, Alta.  
 Anderson, Wm. J., M.D., C.M. 1894, Jasper.  
 Anglin, Jas. V., B.A. 1883, M.D., C.M. 1887, St. John, N.B.  
 Anglin, R. S., M.D., C.M. 1882, Omaha, Neb.  
 Anglin, W. G., M.D., C.M. 1883, M.R.C.S., Eng., Prof., Queen's University, Kingston.  
 Angrove, H. S., M.B., 1916, Kingston, Ont.  
 Angrove, R. H., M.B., 1916, Kingston, Ont.  
 Armstrong, Albert, M.D., C.M. 1898, Warkworth.  
 Armstrong, L. N., M.B., 1916, Kingston, Ont.  
 Arthur, S. W., B.A. 1900, M.D., C.M. 1903, Redvers, Sask.  
 Ash, A. F., M.D., C.M. 1901, Clifton Park, Weehawken, N. J.  
 Asselstine, B., M.D., C.M. 1907, Fernie, B.C.  
 Asselstine, S. M., M.B. 1913, M.D., C.M. 1914, Professor, Queen's University, Kingston.  
 Austin, C. J., M.D., C.M. 1908, Gouverneur, N. Y.  
 Austin, G. H., M.D., C.M. 1893, Wyatt, Ind.  
 Aykroyd, W. H., M.D., C.M. 1903, Balgonie, Sask.  
 Aylesworth, F. A., M.D., C.M. 1903, Roseneath.  
 Bailey, R. W., M.D., C.M. 1904, Philadelphia, Pa.  
 Baker, A. E., M.D., C.M. 1906, New Richmond, N. Y.  
 Baker, D. M., M.B. 1914, Owen Sound.  
 Baker, J. O., M.D., C.M. 1908, Dalhousie Mills.  
 Baker, T. C., M.D., C.M. 1888, Chatham.  
 Balfe, T. H., M.D., C.M. 1892, Hamilton.  
 Ballantyne, W. H., M.D., C.M. 1906, Queen's Hospital, Cairo, Egypt.  
 Barber, A. E., M.D., C.M. 1892, South Bend, Ind.  
 Barber, V., M.C., C.M. 1897, 239 Arlington Ave., Brooklyn, N.Y.  
 Barker, Ralph R., M.D., C.M. 1910, Portland.  
 Barnes, H. M., B.A. 1914, M.B. 1916, Gananoque, Ont.  
 Barnes, J. A., M.D., C.M. 1906, Kingston, Jamaica.  
 Bateman, W. R., M.D., C.M. 1911, Bolton.

- Beattie, Wm., M.D., C.M. 1866, Wiarton.  
Beatty, Elizabeth R., M.D., C.M. 1884.  
Beeman, T. A., M.D., C.M. 1887, Bancroft.  
Beeman, T. W., M.D., C.M. 1878, Perth.  
Beete, Jos. T., M.D., C.M., 1910, Henrietta, B.G.  
Begg, J. W., M.D., C.M. 1887, Cartago, Costa Rica.  
Beggs, W., M.D., C.M. 1908, F.R.C.S., Edin. Edmonton, Alta.  
Belch, J. A., M.D., C.M. 1889, Syracuse, N. Y.  
Bell, Alexander, M.D., C.M. 1865, Lakefield.  
Bell, A. M., M.D., C.M. 1906, 266 Danforth Ave., Toronto.  
Bell, D. E., M.B. 1914, M.D., C.M. 1915, Workmen's Compensation Board, Toronto.  
Bell, Fred McKelvey, M.D., C.M. 1903, Ottawa.  
Bell, John H., M.D., C.M. 1890, Hamilton.  
Bennett, A. E. H., M.D., C.M. 1907, Kamloops, B. C.  
Bennett, H. J., M.D., C. M. 1905, White River.  
Bennett, T. D., M.B. 1916, Spencerville, Ont.  
Bernard, Gerald, M.D., C.M. 1871, Newcastle-on-Tyne, Eng.  
Beroard, L. C. E., M.D., C.M. 1910, L.R.C.P. & S., Edin., L.F.P. & S., Glasgow, 64 Arthur St., Ottawa.  
Berry, G. H., M.D., C.M. 1895, Westport.  
Berry, W. E., B.A., M.B., 1914, Robson, B.C.  
Bertram, T. A., M.D., C.M. 1885, Dundas.  
Bermingham, Frank H., M.D., C.M. 1892, 13 Montague St., Brooklyn, N. Y.  
Bermingham, Mary E. (Macarow), M.D., C.M. 1892, Toronto.  
Bice, Mark, M.D., C.M., 1869, Mount Bridges.  
Biggar, Geo. W., M.D., C.M. 1862.  
Bingham, Jas., M.D., C.M. 1868, Peterboro.  
Bird, Nelson J., M.D., C.M. 1860, San Francisco, Cal.  
Bissonnette, Julien D., B.A. 1880, M.D., C.M. 1892, Stirling.  
Bissell, E. S., M.D., C.M. 1910, Mallorytown.  
Blakslee, V., M.B. 1913, M.D., C.M. 1917, Belleville, Ont.  
Black, B. F., M.D., C.M. 1893, Holton, Mich.  
Black, Donald, M.B. 1914, Lang, Sask.  
Black, W. N. D., M.B. 1916, Kingston, Ont.  
Blackett, O. K., M.B. 1916, Port-of-Spain, Trinidad, B.W.I.  
Blaylock, Ella, M.D., C.M., 1887.  
Bleeker, G. H., M.D., C.M. 1902, Sault Ste. Marie.  
Blair, J. H., M.B. 1916, Aneroid, Sask.  
Blair, W. G., M.B. 1916, Perth, Ont.  
Blezard, J. A., M.B. 1914, M.D., C.M. 1917, Warkworth, Ont.  
Boak, Eric W., B.A., M.D., C.M. 1913, Vancouver, B.C.  
Bogart, I. G., M.D., C.M. 1901, Kingston.  
Bolton, Elmer, M.D., C.M. 1906, 615 Hastings St. W., Vancouver, B.C.  
Bond, H. E., M.D., C.M. 1908, Kingston, Jamaica.  
Bonfield, J. P., M.B. 1916, Ottawa, Ont.  
Boucher, Jos. A., M.D., C.M. 1894, Watertown, Mass.  
Bourns, T. C., M.D., C.M. 1892, Whitney.  
Bourns, W. H., M.D., C.M. 1892, Frankville.  
Bowen, Geo. H., M.D., C.M., 1877, Minden.  
Bowen, H. M., M.D., C.M. 1907, Toronto.  
Bow, M. R., B.A., 1908, M.D., C.M. 1911, Regina, Sask.  
Bowie, H. A., M.D., C.M. 1901, Essex.  
Box, J. H., M.B. 1915, Calabogie, Ont.

- Boyce, G. T. G., M.B. 1915, Georgetown, B.G.  
Boyce, H. A., M.D., C.M. 1907, Kingston.  
Boyce, H. A., M.B. 1916, Harrowsmith, Ont.  
Boyd, J. T. W., M.B. 1914, Port Arthur.  
Boyle, Jos. A., B.A. 1891, M.D., C.M. 1896, Casselman.  
Bracken, E. J. M.D., C.M. 1909, Saskatoon, Sask.  
Bracken, F. C., M.D., C.M. 1911, 8 East 54th St., New York, N.Y.  
Bradley, Ross M., B.A., M.D., C.M. 1908, Wuhu, China.  
Brady, James, M.D., C.M. 1891, Rochester, N.Y.  
Branigan, P. K., M.D., C.M. 1862.  
Brander, J. F., M.D., C.M. 1906, 146 Whyte Ave., Edmonton, Alta.  
Branscombe, M. E., B.A. 1903, M.D., C.M. 1904, Picton.  
Brennan, E. J., M.B. 1915, M.D., C.M. 1916, North Bay, Ont.  
Bridge, B. B., M.D., C.M. 1900, Albert City, Iowa.  
Bromley, J. E., M.D., C.M. 1904, Herbert, Sask.  
Brown, James, M.D., C.M. 1912, Davidson, Sask.  
Brown, Jonathan, M.D., C.M. 1893, New Lothrop, Mich.  
Brown, M. G., M.B. 1916, Moore's Mills, N.B.  
Brown, Robert, M. D., C.M. 1865.  
Brown, W. C., M.D., C.M. 1904, Toronto.  
Brown, W. E., M.B. 1916, Little Current, Manitoulin Island.  
Brown, W. J. B., M.B. 1915, Bonavista, N'f'l'd.  
Bruce, R. Frederick, M.D., C.M. 1886, Mount Morris, Mich.  
Brunet, J. E., M.D., C.M. 1909, Ottawa.  
Buchanan, H. M., M.D., C.M. 1889, St. Lawrence, N. Y.  
Buck, Lloyd L., M.D., C.M. 1909, Espanola.  
Bullis, Wm. H., M.D., C.M. 1884, M.R.C.S., Eng., Rochester, N. Y.  
Burden, Fred W., M.B. 1913, M.D., C.M. 1914, St. John's, Nfld.  
Burnham, S. E., M.B. 1913, M.D., C.M. 1916, Woodrow, Sask.  
Burger, C. H., M.D., C.M. 1891, Kingston, Jamaica.  
Burke, M. L., M.D., C.M. 1907, Port Antonia, Jamaica.  
Burnett, N. L., M.B. 1915, Springfield, Mass.  
Burns, C. W., M.D., C.M. 1916, Toronto.  
Burrows, A. E., M.D., C.M. 1904, Parry Sound.  
Burrows, John G., M.D., C.M., 1891, Marlbank.  
Burton, Geo. W., M.B. 1912, M.D., C.M. 1913, Providence, R.I.  
Burton, S., M.D., C.M. 1900, Lacona, N.Y.  
Burwell, G. B., B.A. 1913, M.B. 1915, Renfrew, Ont.  
Byers, D. P., M.B. 1916, Gananoque.  
Byers, J. C., M.D., C.M. 1908, Spencerville.  
Byrne, E. P., M.D., C.M. 1909.
- Cairns, R. M., M.B. 1914, M.D., C.M. 1916, Ottawa.  
Callfas, W. F., M.D., C.M. 1898, St. Louis, Mo.  
Calnek, S. H., M.B. 1915, Kingston, Jamaica.  
Camelon, T. P., M.D., C.M. 1890, Detroit, Mich.  
Cameron, A. D., M.D., C.M. 1882, Spalding, Neb.  
Cameron, D. R., M.A. 1905, M.D., C.M. 1909, Cochrane.  
Cameron, W. A., B.A., 1887, M.D., C.M. 1890.  
Campbell, A. H., M.B. 1915, Welwyn, Sask.  
Campbell, Albert L., M.D., C.M. 1889, Jamestown, N.Y.  
Campbell, Geo., M.D., C.M. 1859.  
Campbell, G. L., M.D., C.M. 1910, Pembroke.  
Campbell, Jas. W., B.A., M.D., C.M. 1891, Kingston.  
Campbell, Jos., M.D., C.M. 1867, Paisley.

Campbell, Jos. S., M.D., C.M. 1890, Ontario, N.Y.  
Campbell, P. McG., B.A. 1892, M.D., C.M. 1896, Cardston, Alta.  
Cannon, Bruce, B.A. 1914, M.B. 1916, Kingston, Ont.  
Carefoot, E. M., M.B. 1914, Collingwood.  
Carefoot, R. L., M.B. 1914, Forres, Sask.  
Carey, N., M.D., C.M. 1902, Bakersville, Vt.  
Carmichael, Andrew, M.D., C.M. 1891, Sundridge.  
Carmichael, D. A., B.A., 1907, M.D., C.M. 1909, Oshawa.  
Carmichael, J., B.A. 1913, M.D., C.M. 1915, Collingwood, Ont.  
Carmichael, J. E., B.Sc. 1909, M.D., C.M. 1911, Edmonton, Alta.  
Carmichael, M. A., M.D., C.M. 1908, Strassburg, Sask.  
Carmichael, S. V., M.D., C.M. 1908, Strome, Alta.  
Carnduff, J. M., M.D., C.M. 1910, Antler, Sask.  
Carr-Harris, F. F., M.D., C.M. 1901, M.R.C.S., Eng., and L.R.C.P., Lon.
